

Rice's bastard child, Albanian Kosovo

The one thing a bastard can never achieve is legitimacy! Regardless of all the efforts of monarchs, peasants, Albanian criminals and U.S. war whores - a bastard is forever ILLEGITIMATE!

War whore, Rice

History records numerous instances of bastards pretending legitimacy yet at no time in European history has a bastard achieved what it so fervently desires - a valid name and all that it entails.

The bastard child (secessionist Kosovo) of U.S. Secretary of State, Condoleezza Rice, is in trouble; it has been ignored by the legally legitimate states of Eastern Europe at a forthcoming summit. It is a bitter irony indeed, as the summit will discuss Kosovo's future!

Rice has rushed to Europe to placate the legitimate fears of NATO nations that support the bastard pretender - but there is no hope and Europe knows it too well. Only fools and Americans illegally rush into the Balkans and hope to survive!

A report (link below) from IHT sums it up in the title: "***Kosovo on the agenda but not invited to regional summit in Macedonia.***" It seems America has a lot to learn about the mature and cautious politics of Europe. A pretender state in the Balkans governed by organised criminals is just too much, though the world is aware of the impulsive, delinquent desires of infant America!

You need not worry too much longer, Condi, you and your bastard child will be out in the cold in the very near future -- a number of crucial democratic elections in the region will ensure that outcome.

The next time you have grandiose ideas of your importance and influence in the region, Ms Rice, I would refer you to European, Balkan and Asian history - an impulsive infant is in no position to teach an experienced parent!

Legitimacy can never be achieved via illegal means - the secession was doomed from the start. It is impossible to overturn all the civilised laws and conventions of Europe in a decade - all the marketing tricks in the world cannot disguise shit, the rank odour gives it away every time!

Regards to your imbecile President and a word of advice; take a long look at the result of your neo-

conservative philosophy/policies and then concentrate on saving yourself and your own nation! But it is in the nature of the USA to do everything BIG, stupid and dramatic, including FAIL!

I could almost forgive you, Condi, except for the blood on your child-killing hands.
