

Israel/America: the flea wagging the dog

In lands far removed from the intrigues of American politics, the lopsided relationship and disproportionate power that Zionist Israel wields over gentile America appears absolutely grotesque; how is it that the world's most powerful nation continues to kowtow to the wishes of tiny, extremely troublesome, Israel? It presents a most extraordinary sight from afar! Perhaps the advantage of a distant vantage may assist in obtaining an objective appreciation of the REAL reasons behind this absurd relationship.

Lev Bronstein aka Leon Trotsky

Jews number less than 3% of the American population, so it is not the minimal voting numbers that offers an answer. However, many may be surprised to learn that Jews have a huge presence in places of economic and political power, some attaining to the highest positions of influence in the land. Kissinger and Wolfowitz come immediately to mind but a little more research reveals a disproportionate percentage (over 70%) relative to the population figure, of Jews in positions of extreme influence in Washington, Wall Street and other loci of AMERICAN power. The reins of the nation are held tightly in Jewish hands it would seem.

Recently, the Jewish ancestry of mass media mogul, Rupert Murdoch, became known. Murdoch's mother, Elizabeth, carried the 'bloodline' of Abraham, which she passed to her son - an extremely important racist distinction in Judaism. Perhaps that explains Murdoch's rabid support of the Zionist and ultra-right agendas in the USA!

It is important that everyone satisfies themselves with a little research -- Google provides a wealth - and verifies the disproportionate number of Jews in high places.

A question begs, does that percentage indicate higher capability, intellectual or otherwise, or like the retiring gentile CEO of Australia's Macquarie Banking Group, Allan Moss, who is retiring with a \$100 million package to supplement his years of receiving a \$35 million salary, would it instead indicate something else, simple elitism, exclusivist insider groups and secret cabals; all of which characterise infantile aspects of American society today. George Bush's membership in 'Skull and Bones' comes immediately to mind.

The world is aware that George 'dubya' did not achieve the highest position in the land based on

merit, especially his 'towering intellect!' Nevertheless, his puppet presidency did facilitate a huge increase in the power base and influence of U.S. Zionists - need we cite the many failed and COSTLY wars America wages in the Middle East that advantage Israel!

But perhaps the most heinous and offensive aspect of this absurd imbalance of American power was made manifest recently by an aggressive series of interviews -- conducted by Jews -- demanding that Barack Obama pledge his loyalty to Israel! Well, what the hell for might we all ask? Surely the world is becoming tired of the problematic little nation that is more trouble than it is worth!

How dare fanatical Zionists demand anything from anyone, especially the moderate, balanced and non-divisive, Obama - we should not forget that Jewish ideology is based on divisionism and exclusivity, in that the interviewers were true to form.

To attempt to impose such appalling beliefs/policies onto others and demand that we/Obama share in obnoxious racist and divisionist views is beyond the pale. But it is revealing nevertheless. The interviewers displayed such supreme arrogance and undisguised satisfaction that it is 'they' who control Washington that any patriot would spit!

The following link from 'Salon' provides a very damning image of both Obama, for relenting to pressure, and the heinous Jewish Lobby in the USA, assess it for yourselves.

I would add the historical note that a far more successful Empire than the USA saw fit to disperse the very troublesome Jews from their lands and completely destroy their locus of power, the priest class and the Temple! It seems that Jews cannot be trusted to live in peace within their own State, as is clearly evident since the inception of modern Israel!

No one in their right mind would advocate annihilation; however, the dissolution of the Jewish State by the UN may solve a multitude of political ills and even prevent WWII! One need only read Jewish ideological texts -- Joshua and Deuteronomy -- to understand the mindset of this very troublesome, violent, racist group.

The world is fast tiring of America's subservience to the flea that wags the dog!
