

The Singular, unilateral USA approves War Bill

No viable political alternative exists in the USA and only a fool would think otherwise. Noises of opposition from the Democrats are for appearances only; the charade of a democracy must be maintained. Congress passed Bush's War Bill 268 to 155 votes, which effectively puts an end to all illusions the Democrats actually represent a viable alternative!

'Appeasement' Pelosi and 'Uncle Bilderberg' Obama have COMPLIANCE and Status (PNAC) Quo, written all over them. MORE WAR and happy to fund it! The House has spoken and the world hears the message of continuing plunder, murder, millions of refugees, and INCREASING military expansionism, loud and clear!

US Corporate elites are now targeting Africa. The 'appropriation' of the second largest oil reserves on the planet (Iraq) signalled only the beginning of a new imperialist push described by Richard Perle as the 'natural right' of the most powerful military on earth. If we possess the might then the 'right' is automatic!

It was the Israeli agent and rabid Zionist, Richard Perle, who advised the Bush administration to tear up all nuclear treaties and disregard any international conventions that obstructed or impeded the wilful pursuit of the resources of weaker nations. But don't forget this push isn't really neo-colonialism, it's the spreading of 'liberty, democracy and freedom,' ask any Iraqi and they'll tell you that one million innocent dead and four million refugees is an acceptable price to pay for American 'freedom!'

The rogue USA has signalled the world that it refuses to cease its criminal, murdering and thieving activities. Let's call a spade a spade; the USA today has more innocent blood on its hands than any other nation. It's status as a terrorist State is assured -- that is FACT not spin! Bush calls it spreading 'liberty and democracy;' REALITY calls it slaughter and a holocaust! How would you like your morning news served, with or without the TRUTH?

Iraq has become a land of widows and tiny graves since the US invasion. Remember the humanitarian invasion that beelined it straight for the OIL MINISTRY in Baghdad -- no mistaking those 'humanitarian ideals!'

Furthermore, the US also seeks a permanent presence in Afghanistan. Afghanis protecting their homeland and fighting American invaders/occupiers are labelled terrorists and insurgents -- there's a nice inversion for you -- sugar or more delusion with your morning coffee?

'Give me a break,' but I'd rather a nice compact nuke to bring the horror home. Then we could all share REALITY for breakfast.

It should be plain to China and Russia that the US rogue has no intention of ceasing its expansionist agenda. The sooner the USA is obliterated the better. Perhaps enabling expat Serbs with the means to avenge their homeland may avert an all-out nuclear exchange, which is certain if no IMMEDIATE

action is taken!

Sweet dreams Russia and China; dream of missile 'defences' in Poland and the Czech Republic - is that close enough for you? Perhaps we should install them in the Kremlin or Winter Palace or how about up your cowardly arses? The world has no illusions!

The Bear is toothless and the Dragon has a sore throat - fortunately the Tiger continues to stalk the night!
