

Fraudulent Leaders

by peptide *Thursday, Jun 26 2008, 9:14am*

international / social/political / commentary

America beware! The Australian public screamed for change but got a Murdoch approved status quo dummy for a leader. Kevin Rudd's first seven months in office have been defined by his inability to do anything whatsoever; his greatest achievement to date is NON-ACHIEVEMENT! He has become a master of preserving the status quo set in motion by the powers that placed the previous conservative leader in office and so it will go with the USA unless the people detect the ruse before it's too late!

Fraud!

Obama hasn't even waited for the election before backflipping on his previous appealing position. His performance at AIPAC was disgraceful and then the secretive Bilderberg conference, now FISA and supporting Israeli rehearsals for nuking Iran with bunker busters - THE MAN IS A FRAUD, PURE AND SIMPLE, nothing more than a palliative.

The powers and the status quo are safe regardless of whoever wins the American presidency - perhaps a REAL 'dark horse' at election time; however, with the advent of computerised voting the masses are only going through the motions. How absurd is the proposition of real representative democracy? The powers are not about to surrender decision-making to the rabble!

The exact same forces that dictate policy to the Australian government are tailoring both US candidates; the show must go on - "things must change in order to stay the same" or "a change of leaders is the joy of fools," indeed!

After Bush and the loss of public support, rulership is going underground. The USA will remain on its present (PNAC) course but with less oversight and accountability. In Oz we have a puppet leader who performs in front of cameras but achieves little. Obama or McCain would also make good marionettes; real rulership/government is contracting and becoming more covert - the closest comparison would be the fascist government that once oppressed the people of Argentina. We should all expect disappearances and other totalitarian methods in the near future. Bush's 'extraordinary renditions' and illegal detentions are introductions to this new world order! Draconian rule will be the order of the day in the 'democratic' west.

Military manuals now devote large chapters to internal unrest and managing local populations; it seems the (malevolent) powers now view the people as the enemy or at best expendable.

Have you been surveilled lately?
