

Learn from U.S. Failures

The entire world has a great opportunity to learn from the devastating failures of the USA. America's major failures include (the lack of) government accountability, disregarding LAW and international convention, economic MISMANAGEMENT and of course DESTRUCTIVE FOREIGN POLICY! The perpetrators and others responsible are well known; rounding them up for trial would be a simple matter.

In the most critical areas of national life America has failed dramatically. So dramatically in fact, Bush's perverse, inept and criminal policies promise to completely ruin the nation regardless of who wins the next presidency - the damage is just too severe! If the U.S. were a patient it would be on life support in intensive care!

The people and the nation were warned countless times, by countless commentators and analysts to remove CRIMINALS FROM GOVERNMENT AND OTHER POSITIONS OF RESPONSIBILITY before irreparable damage was done. Failure to heed warnings has resulted in the debacle we have today! I refer readers to the double-digit economic growth figures of other nations as a sobering comparison to the U.S. quicksand economy - allied and financially connected nations TAKE NOTE!

Inaction when remedial ACTION was urgently required has resulted in the train wreck that is the USA today. Research all the available figures and verify the FACTS for yourselves; however, for those Americans who continue to suffer from 'reality aversion' we recommend the Murdoch media. It should be noted that the current criminally incompetent U.S. administration COULD NOT HAVE SUCCEEDED WITHOUT THE ASSISTANCE OF RUPERT MURDOCH and his media group - criminal charges would also extend to media barons who constantly and CONSCIOUSLY MISLED the public!

The day of reckoning is at hand. It is not in the interests of the free world to gloat or repeat recommendations that have been constantly ignored. However, it is clear that the criminals responsible for bringing down the nation must be dealt with before any REAL positive restoration can occur.

Laissez-faire capitalism is DEAD, killed by its own deregulated, free market system - hanging on to it or attempting to revive it would be the height of folly but that is precisely what Bush and the Corporate sector are attempting to do - good luck, gentlemen!

Regulated and managed economies have not only survived they have BOOMED! The ***distributed wealth*** paradigm has proven far superior to the concentrated wealth, now FAILED, model.

The American people require JUSTICE; the nation requires re-construction and the free people of the world require SPECTACLE. We can only oblige by offering the greatest trials in modern history. A formula made in political heaven!

Adhere to the principles enshrined in the Constitution and Bill of Rights; documents that Bush and his cohorts refer to as “pieces of paper!” No person/s or nation anywhere has been able to improve on those principles. They are inspirational and simply magnificent!

Jail the criminals, every last one of them!

We are One.
