

Intellectual elites defecting in droves

CRIMINAL and evil cabals that have stolen government, our democracies and plunged the world into conflict and war are losing their intellectual support base at speed. It is not a matter of defecting to the 'other side;' it is a matter of WITHDRAWING SUPPORT FROM CRIMINAL GOVERNMENTS! Vile governments that spy on their own populations, legalise TORTURE, subvert legal process, illegally detain citizens and engage in all manner of criminal activities, including invasive warfare and mass murder, remind us of the most oppressive and despicable totalitarian regimes of the 20th century.

George W Bush's 'terrorist watch' - domestic spying by any other name -- has already resulted in over one million American citizens placed on its 'watch/hot' list! This absurd outcome exposes domestic surveillance for what it is, a mechanism that was designed to monitor CITIZENS, not the 'terrorist threat,' (scapegoat/excuse).

Bush's snoops and spies are now able to gather information on anyone THEY deem to be antagonistic to THEIR CRIMINAL OPERATIONS! That is the grim reality. The deathblow to American democracy has been delivered.

Alarmed intellectuals and creatives, who are not so easily deceived, have finally rallied and are taking action against despots and would be tyrants. In this regard they will be hailed by future generations as the quiet heroes of the 21st century - their semiotic war is silent, subtle but extremely effective! The despots are now faced with 5th rate talents working in their interests. And as every rocket scientist knows, you cannot win a race with second rate runners!

Fools failed to realise that human beings instinctively reject moral degenerates and reprehensible criminals. Furthermore, money is a minor consideration; the movement to eliminate the means by which criminals deceive the masses can only succeed. Talented people are humanitarians, the 'evil genius' is comic book myth - LOVE rules, LOVE and human kindness rule over ALL!

Jail the despots, restore the rule of law and heal the nation.

We are One.
