Far too late, Defence Secretary Robert Gates, cited the destructive effects of the Perle, Rumsfeld, Wolfowitz, Cheney policy of unilateralism in a global world. "We cannot prevail if we act alone," Gates outlined in his National Defence Strategy paper. However, Gates also stressed the importance of [U.S.] "freedom of action in the global commons and strategic access to important regions of the world to meet our national security needs," which in effect cancels his call for cooperation - I count only three real U.S. allies, Israel, Britain and lackey Australia! You cannot succeed in gaining credibility in the international community by sending absurd mixed and contradictory messages, Bob - you want (the world) cake and to eat it too!

Defence Secretary Robert Gates, constant war is good for America

Gates overtly cited Russia and China as ENEMIES -- that's what I call real cooperation, Bob! It seems the idiocy of American logic will continue regardless of every other consideration. It's the nature of the beast and the sooner the world wakes up to the fact the USA couldn't give a shit about anything other than itself, the sooner free nations will unite and rid themselves of the murdering, invasive rogue!

Labelling Russia and China as enemies is the height of ignorance and American stupidity! The world's strongest nations must either cooperate or destroy each other - the other option of course, is for an alliance of the world's most powerful nations to destroy the (unilateral) ROGUE! The reader will note the Sino-Russian military alliance has existed for some time. NATO is loath to become a nuclear battleground so it's really two superpowers against one - no competition, Bob!

In the past the economy was the province of civilians but as the evolution of the American military-techno complex evolved it swallowed the Pentagon! PRIVATISATION of almost every aspect of defence and security has occurred during the corporate free-for-all of the Cheney-Bush administration. Corporations like Halliburton and its subsidiary KBR have been given blank cheques to conduct the nation's wars, a project they relish, all that untraceable money - Bonanza! As a result, Gates is now forced to address the economy or what's left of it - it should now be apparent that only governments are able to regulate both the military and the economy; these two beasts should never conjugate! "The well-being of the global economy is contingent on ready access to energy

resources;" stated Gates. It sure is Bob, pity the U.S. economy has already been completely ruined by neocon policies.

America is a liability not an asset; are you able to turn it around, Bob? The damage done in eight years is HORRENDOUS. Approximately one million dead civilians and so many failures -- while the whole world was watching! Zero credibility and competence rating, Bob!

The world watched as you bungled and fumbled your way to the point of paying off your enemies in Iraq - the war is not won for a minute. When the money runs out what then? Even the puppet Iraqi government has given you marching orders. With a little help from its friends, Iraq can ensure the internal collapse of the USA if you do not leave on demand - never underestimate your enemy, Bob - Saddam is beating you from the grave, remember his "quicksand" statement!

It helps if you first identify your enemy, Bob - and you have CREATED MANY - believing the witless and incorrect assessments of the RAND Corp and other fund devouring 'expert' organisations has PROVEN disastrous, Bob! O my, not a group or person qualified to help! But you should have known that your intellectual elites find your criminal, warring, unilateral policies, repugnant; the real talent has gone over - for fuck's sake, you can't even identify me, Bo(o)b! We've been teasing you for years, for the whole world to see; Bin Laden is your man, WE ARE NOT!

It's downright awful when your ineptitudes have been paraded for the world to see; your incompetence exposed to the four corners of the world - it's like one of those dreams, Bob, walking down a public street with your pee-wee dick hanging out!

Have you ever seen piranhas devour a buffalo, Bob? So many tiny little bites and no more buffalo. Would you like us to show you where the REAL FRONT is, you bunch of quarter-wits?

Give us an appraisal Bob, how many missiles is this paper worth? But don't forget I'm only one tiny little fish - WITH TEETH!

How much longer will the world tolerate you printing (toilet paper) money; it's part of the problem Bush and his handlers created, Bob. In a word, RUINATION!

It's already over, Bob - you and your criminal government are FINISHED!

As for the FREE WORLD -- We are ONE.

President Bush, "I wanna lead"
