The sideshow that is the American race for the presidency is characterised by one-liners, slogans and as the BBC so accurately put it -- especially in Obama's case -- an abundance of meaningless persuasive expressions or "RHETORICAL FLOURISHES!" The description couldn't be more accurate with Obama in his 'flight' for the presidency. However, people around the globe are not as stupid as the American masses. American tactics and strategies are transparent outside the USA!

***Which candidate makes a difference?***

Simple questions reveal much; would a person of INTEGRITY embrace BIG BUSINESS after successfully demonstrating via the Internet that the people could finance a bid for the presidency? Why did Obama ABANDON THE PEOPLE'S ROAD TO THE WHITE HOUSE and embrace CORPORATE FINANCE and traditional power elites at the 11th hour? Couldn't possible be that Obama is a slick FRAUD, a modern UNCLE TOM - be not deceived!

The people supported this FRAUD when he gave them the opportunity to PARTICIPATE IN A REAL DEMOCRACY. Please note the following:

After demonstrating that his strategy could take him to the White House, Obama leveraged his position with traditional power elites; he forced them to take him seriously by exposing the soft underbelly to their power. Terror gripped criminal cabals around the globe; they have MUCH to lose, hide and fear!

Panic and alarm permeated the 'halls of power' everywhere. Ruling minorities had always possessed the reigns of power - MONEY - and were horrified at the prospect they would or could lose their power base. A charismatic upstart, fake American black from Chicago had breached the walls of Troy with his 'horseshit' of a people's movement and grassroots money!

However, Obama had no intention of implementing REAL DEMOCRACY or majority rule -- government of the people by the people! Immediately after he demonstrated the means by which

ANYONE could take the White House and overturn the criminal status quo he abandoned the grass roots movement and embraced minority interests, AIPAC, BANKERS, CORPORATE FINANCE! If nothing else Obama proved without doubt he is a pragmatist; his interests are the job not restructuring the entire nation -- WHICH IS REQUIRED! Black Narcissus in the White House -- with the integrity of a harlot -- perfect! A traitor and turncoat who displayed such contempt for the masses that he OPENLY turned his back on them! A Kenyan just shit in your dumbarse, doodle dandy faces, America - can you hear the laughter from Oz, Europe and Asia?

Obama made no attempt to hide his outrageous sell-out of the people to the power elites - make no mistake he is a slick, smart fuck, this Kenyan!

It matters not which candidate wins the presidency, the status quo remains and the president will do as he is told.

[Gasps of relief could be heard from every secret chamber around the world; Obama sold out and demonstrated the he is cast in the same mould as all filthy, lying, traitorous, politicians. JFK was the last independent US president as was Whitlam in Australia.]

The real tragedy of Obama is that he could have done it; sure his life wouldn't have been worth 2 cents but exceptional human beings have never feared death - because they understand it! They ensure their legacy blazes in their aftermath - interesting turn of phrase!

A crying shame - the perfect epilogue for 'merika!
