

Bringing it ALL home!

America and her allies are now reaping what they have sown. Would anyone but demented Americans imagine they would be immune from the consequences of their reckless actions? There was no avoiding the consequences of the drunken sailor spending of a clueless administration guided and controlled by the private interests that have pillaged, plundered and ruined not only the local economy but numerous foreign nations as well. From Kosovo, Central Asia to the resource wealth of Australia, the pigs gorged themselves like there was no tomorrow! And that is exactly the point - THERE IS ALWAYS A TOMORROW and NOBODY 'gets out!'

George

For America, tomorrow has arrived today; the extremely foolish American people must now foot the bill and accept responsibility for not reining in the Bush regime when its criminal incompetence became known to the entire world -- notwithstanding the guilty can be charged at any time! But it seems the fat cats and Washington have won! The NATION IS RUINED and will never regain its former position in the world -- any pig farmer could have told you that feeding pigs have no conscience. However, the people allowed it, therefore the people must wear the consequences! Home of the brave, land of the free, is now more accurately the land of the fearful, and home of SLAVES - there is no avoiding it!

Perhaps a reminder of what you failed to address in time:

The illegal pre-emptive war based on LIES. You remember that one, it continues today, notwithstanding Bush and the neocons imagined it was over in three weeks! "MISSION ACCOMPLISHED;" remember that, you dumb, American fucks? YOU DID NOTHING, SO DO NOT COMPLAIN NOW!

Perhaps a "bouquet of flowers" from Wolfowitz and the PNAC committee may cheer your troubled souls, no! How about some more intellectual gymnastics from former Secretary of Defence,

Rumsfeld, who arrogantly stated that his amphetamine-soaked military were “not nation builders,” implying of course they are nation destroyers. DO YOU NOW SEE where that mentality/logic leads? ‘Nation destroyers’ indeed! Are you able to determine the consequences of certain actions and ‘logic?’

We could add Cheney’s contribution of “breaking the back of the insurgency” but he’s too busy making money and sealing deals for Halliburton/KBR, you vacuum-headed yanks.

The numerous wars America and her fuckwit allies wage are LOST – as are all invasive, unjust, criminal wars. The relative ‘quiet’ in Iraq is the result of Uncle Sam buying off warlords and sheikhs but what happens when the money stops? More “unknown knowns” to deal with!

What to do in the circumstances? I know, let’s re-introduce concentration camps, torture and illegal detention then strip the privileges and rights of our own population in order to prevent THEM from assailing us!

‘Waterboarding’ doesn’t sound like torture does it? We do wonders with language, did you like “unknown knowns?” How about “write down” replacing LOSS or ‘derivatives,’ no one knows what they are -- and the band played on!

And that’s not the half of it, we haven’t even mentioned contravening International Law and convention regarding the sovereignty of European nations or the LEGAL CONSEQUENCES OF MURDERING OVER ONE MILLION INNOCENT CIVILIANS, you stinking, terrorist, criminal scum!

The sooner Russia and China launch and wipe you from the planet the better. Don’t worry we know they are not inclined but we are ABLE!

Have you ever wondered why the accounts NEVER balance? Where does all that money go, Uber-1, Uber-2?

If I was an A-meri-can with sense I would be out of there before 2010, a little ditty for the crewz!

I would add that all your think tanks do not rate against one of our youngest trainee crewz. [You should see the operational arm.] Just follow all that evaporating money, if you can!

“The war is won or lost before the first battle begins” – you dumb fucks!

Nuclear war, no problem at all! YOU CANNOT AFFORD TO HESITATE AND THEREIN LIES OUR STRENGTH.

From Texas, Virginia, Moscow to Beijing -- do your fuckin’ best. We compromised NASA decades ago.

Sorry did I stray again? The bankers know the economy is dead but they have successfully avoided prosecution (not you, Allan Moss) that is the reality of the ‘bailout!’ I laugh when I see the REALITY in YOUR face -- just what or WHO do you think you are ‘bailing out’ -- too funny? You pathetic chumps!

The world belongs to those able to take it – always has, always will!

Good luck!
