

## Rumsfeld in Adelaide

by cleaves *Wednesday, Nov 16 2005, 1:28am*

national / social equality/unity / commentary

US Secretary of Defence, Zionist and neo-con extraordinaire, Donald Rumsfeld, will visit Adelaide (of all places) to hold discussions with servile Australian politicians regarding Australia's continuing involvement with the pariah nation of the world, the USA. Rumsfeld's visit is timely, it coincides with nationwide dissent and protest against IR and draconian anti-terrorist laws recently implemented by leading US lackey and coward extraordinaire, John Howard.

Before we continue we would like to say, "Yankee go home and take your lackey dog, Howard and his front bench with you!" I hope it becomes plain to Rumsfeld that Howard and his conservatives no longer have the support of the Australian people; in fact, as a result of their policies they are despised. The Australian people are asserting their inalienable rights - an inevitable reaction to forces that would destroy traditional values and the cultural identity.

The change of venue from Sydney to Adelaide was the result of security concerns in view of recent protest activity. In view of passionate but peaceful protests, the government has decided to exercise its new draconian laws and ban activists and protestors from the venue in Adelaide. It is hoped that the severe penalties incorporated in these new laws will act as a deterrent to protestors. We will see!

It should now be clear to all that the new laws were created to silence voices of opposition and dissent not as a protective measure against terrorism. Draconian laws have never been effective against real terrorist activity but have proved extremely useful in managing a local population; crying 'subversive, traitor, enemy of the State', are old tricks totalitarian regimes utilise to eliminate opposition on the home front.

Recent protests in Australia are a fight to re-assert democratic rights and eliminate the social poison that would install totalitarian and police state methods in a once democratic nation. May the movement against oppression never cease until traditional values and freedoms have been restored.

We are One.
