

APEC dunderheads suitably attired!

Leaders of the Asia-Pacific Economic 'Co-operative' traditionally finalise their gathering by donning the national dress of the host nation. This year was no exception; however, in a bid to humble or portray leaders as they really are - PUPPETS and potato-heads - a very astute 'designer' dressed the 'world leaders' in potato-sack ponchos - and what a sight it made! The narcissist clowns presented to the public as leaders (chunder) have been accurately rendered as potato-head puppets to the Corporations and Big business. We thank you Peru for demonstrating to the world the real calibre of our 'leaders' - what a fuckin' joke!

In keeping with puppet politics Al Gore today did his bit to sell Obama to a world that is NO LONGER buying American bullshit! Gore 'raptured' over the ability of America to "redeem" its core values as set down in the Declaration of Independence; he repeated the LIE of equality and referred to the black puppet president-elect as evidence that America had 'changed' - give us a break! Al was hoping like hell that others outside the US would swallow his feeble sell and thin lies! Well, they didn't! There's that 'tiny' matter of the Iraq holocaust that no one dares mention -- though it's getting more difficult to IGNORE! America's role in the deaths of over ONE MILLION INNOCENT CIVILIANS is a taboo topic for mainstream journalists! Nevertheless, WE rely on the clear and unfettered sight of a child to determine whether or not the emperor is clothed.

We need not list the myriad other laws and conventions flouted by the world's leading terrorist state to highlight a fact that any school-kid (but few Americans) could comprehend.

Until such time as America faces itself and holds the mass murdering, plundering, former administration accountable, America's credibility will remain in the minuses.

America fools only itself; the overwhelming majority around the globe continue to hold the USA in the contempt it rightfully DESERVES.

We take this opportunity to once again remember the child who exclaimed 'the emperor has no clothes' and to remind mainstream journalists that they are a disgrace to their profession - holocausts are not trifling matters.

We anticipate more mass sackings of this loathsome media breed in Australia. After the Fairfax mass sackings Murdoch has been inspired to go the 'extra mile' and kick the lot of you sickening sycophants into the gutter (where you belong). To think that journalists were once considered the conscience of democracy! Fortunately that role has fallen on the shoulders of the INDEPENDENTS - who make no claim to impartiality but who nevertheless report WITHOUT FEAR OR FAVOUR!

We apologise to no one for constantly insisting that crimes against humanity be addressed and that the guilty are dealt with according to LAW and international convention as set down AND RATIFIED in the Geneva Convention.
