

A Procession of Fools

international / social/political / opinion/analysis

The leading contributing factor to the liberation of the enslaved masses in the early 21st century was the brazen and overt criminality of the Bush and other allied regimes. The Bush regime singlehandedly and irreparably undermined every aspect of social cohesion, traditional value, regulation and legality in the western world. Among its most outstanding 'achievements' are a civilian holocaust in Iraq, perpetrated in the name of 'liberty, freedom and democracy,' and the blind pursuit of de-regulated, free-market capitalism, which culminated in the destruction of the GLOBAL economy! No small feats considering Bush's tenure in office was only eight short years!

Nevertheless, we are indebted to the 'idiot Texan prince' for demonstrating to the world that all 'sacred values' and social codes that once defined who we were, are merely ink tracks on "pieces of paper" - so much for the founding documents of our respective nations!

The people, whether they choose to exercise their new freedoms or not, and members of the Bush regime remain free to this day. The Bush regime clearly demonstrated that the law was written for wimps and weaklings; a codification to be flouted or altered to accommodate activities once considered criminal/illegal!

Indeed, the Bush regime actually tested the strength of paper tiger 'superpowers,' Russia and China and correctly predicted both nations would not resist America's military expansion into areas far removed from its former spheres of influence.

The USA and its ally Israel continue to wreak destruction and commit war crimes with a contempt unseen since the Nazis of Europe. But in contrast to the Nazi era, the Law today tolerates these crimes!

Armed with the knowledge that not one senior American official has ever been charged or held accountable for flagrant war crimes committed during the Indo-Chinese conflict - 4 million civilian deaths from illegal carpet bombing campaigns -- the Bush regime 'went at it' with a vengeance.

To date the civilian death toll resulting from Bush government policies numbers over one million souls in Iraq and hundreds of thousands in Central Asia.

However, underreported, American backed, genocide (of Tamils) in Sri Lanka is currently in progress as I write, as are other American instigated and supported massacres in the Congo, Sudan and Somalia.

These wars receive scant coverage in the Western media, however, India is acutely aware of the plight of Tamils in Sri Lanka. Thousands of innocent Tamils have been killed in the conflict between government forces and Tamil independence fighters. Thousands more innocent Tamil civilians in Sri Lanka are suffering horrendous hardship; the UN has warned of a humanitarian crisis if American SUPPORTED Sinhalese forces do not cease hostilities immediately!

The crisis in Sri Lanka is of such huge proportions that it promises to capture the attention of not only minor NGOs, and aid organisations but major powers around the globe. The world may soon put an end to Israeli and American genocidal tactics for good!

Notwithstanding the approaching battle of the juggernauts, the masses have come to realise their status as SLAVES, not the least reason being that bailout monies have been pocketed by Banksters rather than utilised (as promised) to prop-up failing economies! The reality is simple; the capitalist system is DEAD; it died from a flawed economic model. Wall Street barons and others know it! The Banksters and Wall Street rogues are acutely aware the US economy is beyond recovery, so they did what any red-blooded American capitalist would do given huge sums of money UNCONDITIONALLY; they pocketed it in executive bonuses and other in-house relief 'efforts!'

The band played on as the Titanic went under and the American sheeple will drown to the screeching sound of the Fed's printing presses in overdrive!

And what do you suppose our fearless 'leaders' are doing in times of crisis? Spouting the same empty, useless rhetoric --I'm gonna luv watching Baa'raaack O'Rhetorical Flourish, chant slogans and try to spin his way out of the current mess facing America and the globe!

Regardless of how 'powerful' America imagines itself to be, it cannot do it alone; no nation can! The calamities that face us all are far too great for even the most skilled Texan gunslinger to overcome - there is something to learn here, President Ebony Fraud!

We wait patiently but the world does not!

Have you noticed the growing numbers of citizens hauled before the courts questioning the authority of the State? Why wouldn't they, Bush taught them well!

One poor fellow, furious over a questionable traffic 'offence' quite spontaneously launched into a tirade of abuse at the 'authorities' and questioned the magistrate over the LEGITIMACY of the proceedings; he demanded to know who he had allegedly 'offended' and under what jurisdiction or authority he was being harassed.

"I am not subject to a British Monarchy that is responsible for untold suffering and the mass murder and abuse of innocent indigenous people around the globe, nor am I subject to a criminal State that engages in illegal wars and crimes against humanity. If I am imposed upon by either of these entities I reserve my SOVERIEGN RIGHT to be held as a prisoner of war, as I am vehemently and directly opposed to these criminal entities!"

An interesting tirade in an Australian local court - the magistrate failed to answer directly and chose to adjourn the case instead. Court reporters were taken aside after the proceedings. Bush, Blair and Howard have opened Pandora's Box, it would seem.

[I would appreciate additional information relating to similar instances in our courts, particularly people asserting their SOVEREIGN RIGHTS and questioning the LEGITIMACY of the current court system.]

In the meantime we can amuse ourselves watching puppet politicians in procession uttering the hollow words of their masters. They have not yet become aware they are transparent to the majority of people.

It is the front the Generals disregard that constitutes the greatest threat -- not Sun tzu!

We are the people.

We are ONE.

Peace.
