All we see in America is a servile, whipped-dog-obedient, cowering, long-suffering, SLAVE population that takes ever more abuse, hardship and maltreatment from its incompetent leaders and corporate ruling elites.

Bankers destroy the economy and the taxpayers' pay them bonuses; makes sense, don't it, Jethro? Allowing dubya Bush and G Sachs Paulson to rob the public purse and GIFT taxpayers' money UNCONDITIONALLY to the parasitic banking establishment is retarded and servile to the extreme.

How much courage is required to hold a banker accountable? More than the population of the entire United States possesses, it would seem. Hope and pray that your enemies do not wake up to the national bravery metre now flashing on the chicken-shit marker! How ever you choose to define the behaviour of the American population, 'bravery' would be the remotest descriptor!

The nation has been ruined by misadventure, catastrophic wars, unrestrained spending and almost no regulation on those that require it most! The disastrous consequences are now unfolding; massive, world-wide unemployment and contractionism, which not surprisingly has sparked riots and angry demonstrations in political capitals around the world but NOT in 'brave,' chicken-shit America - if you imagine this piece is a pysop designed to foment unrest in the USA you would be WRONG!

We love watching brave Americans EAT SHIT, especially when it is served up to them by their OWN FRAUDULENT, LYING, RULING ELITES - can you hear the laughter from here? The more the US government oppresses, abuses and deceives the American people the faster the nation hurtles to oblivion! You don't need any external enemies, you have bankers, and other corporate elites running you and the nation into the ground -- while they enjoy the high life, all at YOUR expense. In case you haven't noticed they have all but destroyed the nation, you dumb, gutless fuck's! How sweet it is [TO WATCH!]

You're going to hell in a hand-basket!

But don't worry, Obama is gonna save you; with escalated wars, more economic mismanagement and by adhering to the same destructive status quo! That's sure to work!

"Hope," "Change." "Yes we can!" Take a long look at REALITY, you dim-witted, slobs.

You'll have to excuse me now, I'm watching "Will it Float" on Letterman, you mindless, gutless, morons!

Have a nice day!
