In a political inversion that defies all reason and rational thought, the Canadian government recently barred a British MP from entering the country while welcoming, with warm embraces, a notorious mass murderer and war criminal! No prizes for guessing the identity of the notorious war criminal, George W Bush; however, some people in North America may not be familiar with the outspoken British MP, George Galloway, who I would add is NOT guilty of deceit, leading to the mass murder of over one million INNOCENT Iraqis!

Realising that the Canadian government's decision would attract severe criticism and the scorn it rightly deserves, the Canadian (International) Jewish Lobby sprang to the defence of the government and congratulated ministers for not allowing 'supporters of terrorism' to enter the country - dig that!

The outspoken George Galloway is widely known for his political stance against criminal governments and illegal wars; he is also respected as a politician/man of integrity and for his relentless pursuit of truth and justice.

Rather than welcome Bush, the Canadian authorities should have arrested him immediately he set foot on Canadian soil - for shame Canada!

The Canadian Jewish Lobby also seems to be suffering from the same dissociative disease that is plaguing AIG executives! Allow me to draw attention to the CURRENT REALITY; the entire world loathes Bush and is vehemently opposed to the OVERT criminal and terrorist actions Israel!

There is a wealth of material on this site and the internet relating to Galloway, I leave you with one of his earlier addresses to the Senate and his recent response to the Canadian ban:
