

Rogue nations and poisonous ideologies: we know what we must do!

Comrades, brothers and sisters and all thinking people of the world – WE are ONE!

However, it is clear we constitute a minority, notwithstanding an extremely capable minority of highly dedicated, passionate, motivated and skilled people of conscience and moral fibre. We continue to work together in communities, small groups and individually against overwhelming odds and forces that would lay waste to the entire world for the sake of singular control, avaricious gain and a host of other perversities.

WE are CALLED!

Liar, Lackey and reprehensible Fraud

Ours is a NOBLE calling of the AWARE and the ABLE against mass murderers, vandals and all manner of vile human aberrants, collected and projected into the world in the form of one, Barack Obama; the face behind which every nefarious deed known to mankind is committed – and I do not exaggerate!

It is almost pointless forever discoursing on the ACTUALITY of social, political and environmental events with the view of effecting positive change – REALITY dictates the opposite has occurred. How could our discourses effectively compete with those who have taken control of the mass media, education system and almost every other information system -- leaving only an easily manipulated digital medium as a means of communication. However, as I write power elites are currently engaged in taking control of the last truly FREE public medium, the internet.

Vital and core communication infra-structures are presently being appropriated by a combination of government regulation and commercial interests and very soon it will either be beyond the reach of the average person to broadcast or publish material that does not conform to or enhance the dominant discourse of the power elites. Exclusion by censorship or cost is no problem for those forces that are able to print money, buy governments and whatever else is subject to FINANCIAL control – the modern means (chains) of slavery.

Corporate interests involved in the Information Industry such as Google, Cisco, Microsoft and others have already demonstrated their willingness to acquiesce to ANY dictate of the powers in order to

gain a greater percentage of 'profit' and 'market share.'

Very soon the FREE or dissenting voice will be mute or at the very least designated as criminal, 'terrorist, extremist, subversive or insurgent.'

We witness today sovereign, native, peoples fighting to protect their homelands (and repel invaders) branded as criminals, insurgents, terrorists etc when in fact it is clear those labels accurately apply to the invader and occupiers - blaming the victim is an old imperialist propaganda trick!

America alone is directly responsible for over TEN (10) MILLION CIVILIAN deaths (and counting) since the Korean War - its latest scandalous effort is the ONE (1) MILLION INNOCENT MEN, WOMEN AND CHILDREN SLAUGHTERED in Iraq for the cost of a tank of gas! It is no surprise that America -- the murdering, plundering, rogue -- is responsible for the first gruesome holocaust of the new century.

America today has perfected its methods of propaganda to the arrogant extent that its high officials including President Obama, feel perfectly confident TOLERATING (not prosecuting) TORTURERS! *If that is not an accurate measure of rapid moral decline then what is?*

An old adage says 'the people deserve their leaders,' so it is to the responsible party I point the finger of accusation; YOU are MY ENEMY, every citizen and ally of America -- anathema to all civilised, peace-loving, law abiding societies and nations! Let history bear true record and witness!

Obama accuses others of being on the "wrong side of history," when in fact it is HE that stands opposed to decency and Law. There are NO EXCUSES, the situation is compounded by the fact that Obama once lectured in LAW. My five-year-old could do a better job avoiding responsibility than Obama.

TORTURE is not a trivial offence or a "mistake!" Give the WORLD a break you lying FRAUD, Obama! The word you constantly avoid articulating is 'CRIME!' TORTURE IS A CRIME, Mr Baa'raack O' Lackey. Repeat it many times until you gain the courage to PROSECUTE the guilty. You are able because "you, Mr President, can!!"

My closest comrades informed me that I would fail in my peaceful attempts to alter the course of the criminal powers; nevertheless, they allowed 5 critical years for the attempt - WE ALL hoped beyond reason that the people would resist the poison that is now in the final stages of consolidating its hold on the world.

I now ask forgiveness for what must be done, though YOU didn't give a second thought for my murdered wife and daughters.

I do not commit this act in callous disregard though your hearts are blacker than night. Think of it this way, most will thankfully die instantly; the rest must accept their fate and perhaps appreciate the NEEDLESS and horrendous suffering of millions around the globe.

You see I made the promise that if I was granted 5 years and failed then I would deliver the final blow.

Please forgive my previous failures and forgive my final success!

Forgive me for the many omissions and things I failed to do - for all the lost comfort, happiness and

joy I could have brought to the lives of many.

Forgive me for this final act and the millions that would pay a debt for an evil few!

It is over – the murdering beast must be brought to ground so that others may live in Peace!
