Based on a Radio National Report

Due to the increased number of students and immigrants to Australia from the Indian subcontinent and the (related) increase in racist attacks on Indians and Bangladeshis, senior police/government officials have been forced to fly to the subcontinent and deliver lectures on the best ways to avoid racist attacks in Australia! One wonders why prospective students and others coming to this Johnny Howard-revived, RACIST, xenophobic, parochial BACKWATER do not reconsider their options. It is clear by the approach the authorities are taking that racism is tolerated as a cultural characteristic! Australia is located at the 'bottom of the world' in more ways than one it would seem! SHAME on you and your cowardly, xenophobic, racist population, Australia!

Students protest racist Australia

The most recent case that severely damaged Australia's international reputation and revived the buried corpse of Oz racism was that involving AFP Chief, 'have another drink' Mick Keelty, former PM, John Howard and two of his senior ministers. Howard and Keelty attempted to scapegoat an innocent dark-skinned Indian doctor on terrorist charges in order to boost Howard's election prospects. It is easy to see why Howard found this plan irresistible; take note of the semiotic triggers, 'dark-skinned', 'foreign' 'terrorist', Howard and his handlers couldn't say no, could they, Cousins, you despicable piece of RACIST shit?

After squandering \$8.2 million in taxpayer dollars attempting to frame this innocent, dark-skinned Indian DOCTOR, the flimsy, fabricated case collapsed. Those involved in this Australian TRAVESTY still HAVE MUCH TO ANSWER FOR!

We note the drunken, brain-damaged AFP chief has since announced his early retirement - NOT GOOD ENOUGH! Kevin Rudd, the current PM who fares from the racist, xenophobic State of Queensland, stated PUBLICLY that Keelty had "served the nation well" and had done a "great job", WHAT! The 'man' should be facing a FULL INVESTIGATION and possible charges!

In view of this nation's ignominious past and LIVING deplorable racist history -- Cronulla race riots -- one wonders why any student, professional or otherwise educated person, would journey to this pathetic backwater and jeopardise their personal safety - a number of Chinese nationals have been murdered in racist attacks in Melbourne and Sydney prior to recent attacks on Indians and

Bangladeshis. John Howard, Kevin Rudd and senior ministers, past and present, should be 'proud' to be Australian; we note no harsh penalties have been applied to racism offences or steps taken to pursue the obvious criminal collusion of senior government officials in the Doctor Haneef failed frame-up! GET SERIOUS, you bunch of COWARDS, white Australia!

Australia's once attractive institutions and other facilities no longer have their previous appeal, Singapore and other regional powers offer high standards of education notwithstanding Europe as the premier destination for professionals and students alike.

The greatest tragedy for Australia is that the CURRENT COWARDLY, SERVILE GOVERNMENT regards these matters as trivial - they have no idea of the great cost to the nation their attitude incurs. Not surprising, is it?

A full investigation into the Haneef case would reveal much and there is no good reason to delay proceedings.

All civilised people are aware that RACISM is an expression of COWARDICE and FEAR! How does THAT feel, Aussie? [The true face of a pathetic, SERVILE nation!]
