An International story of defiance against oppression and corrupt minority rule

The image below captures more than its component parts; its enduring quality is its ability to speak to ALL human beings regardless of race, culture or nation. It is the story of the IRREPRESSIBLE HUMAN SPIRIT refusing oppression, corruption and FEAR to STAND DEFIANTLY against the odds and eventually OVERCOME all obstacles and achieve emancipation/FREEDOM!

Everyone easily relates to the image without the slightest need for interpretation – it is the ageless HUMAN struggle; the indomitable human WILL PREVAILING against apparently insurmountable odds. Heroic myths and legends originate from REAL human stories of TRIUMPH. I leave YOU to ruminate over YOUR fate.

The West is enslaved by mind manipulation and fear. In contrast the East/China today experiences thousands of revolts against the authorities; villagers with pitchforks repel heavily armed soldiers and police. Soon hundreds of millions of unarmed Chinese will pour across arbitrary land borders and enter Europe. NATO, the military arm of Western elites will be overwhelmed by unarmed masses seeking FREEDOM! Who could refuse people seeking liberty? Surely not the Western nations that never stop bleating democracy, freedom and liberty – SO BE IT!
