

America responds to Australia's pathetic pleas for help!

international / social/political / commentary

Weak-kneed Oz politicians call on daddy America for help in China Rio Tinto 'crisis' - notwithstanding that REAL LEADERS could have EASILY handled the situation by going on the political/economic offensive without crying for DADDY America. SHAMELESS COWARDICE and INCOMPETENCE from Oz leaders, while the whole world is watching! Rudd now competes with Howard's record of total INFANTILE SERVILITY and HELPLESSNESS, the shame of it all!

US Commerce Sec. Gary Locke

How pathetic is SPINELESS Australia to ALLOW the MURDER of FIVE of its citizens (in Balibo) to go unpunished after the identities of the Indonesian MURDERERS has been established by an official Coronial Inquest! Not a word from Rudd or other Oz 'leaders' -- due to the FACT they are incapable of dealing with an open and shut murder case! THEY CAN'T HANDLE IT!

The Indonesians got the measure of Rudd on the occasion of his first international political appearance in Bali - Rudd was left sorely WANTING after a scornful lateral, political attack, which portrayed him as a timid fool. Rudd made front page news in Indonesia and the REGION but barely got a mention in Oz, 'can't understand it!' Rudd is now a known quantity in the region and the world -- weak as piss!

I would also mention that regional Melanesian, Micronesian and Polynesian leaders recently recognised Fiji's leader, Commodore Frank Bainimarama, as the LEGITIMATE LEADER of FIJI, which amounts to a slap in the face for the Oz leadership. At least our black and brown brothers originate from WARRIOR stock - we can only wonder which rock Rudd, Swan and Smith crawled from under, they DO NOT REPRESENT AUSTRALIAN MANHOOD by any stretch of the convict imagination!

Shamelessly calling for America's help in the current circumstances shouldn't surprise anyone, not least the gutless Aussie population that considers Rudd a good leader -- give us a break!

What a pathetic bunch of spineless shits Aussies REALLY ARE! Leaders reflect the character of their populations and the message from Australia is CLEAR! Aussies can't handle the smallest challenges - Japanese whaling in Southern waters is left to Greenpeace to challenge, naturally!

Surely it should be evident by now that the attack on Oz via Rio Tinto is a reaction to Australia thwarting China's attempts to translate worthless US greenbacks into REAL MINING ASSETS! A deal the Oz government, under directions from Washington, subverted. America's intervention in Iran, Chinese Tibet and Chinese Uighur, Xinjiang province also contributed to China's response - did you expect the Chinese to sit with their thumbs up their arses like Aussies?

Australia may yet prove to be a VERY troublesome colony for America; all those VALUABLE resources for the taking. A little FLEA powder and the Oz leadership is lost!

[I would add that REAL AUSTRALIAN LEADERS exist, however, they refuse to kowtow to characters like Murdoch or BIG Business influences. These leaders actually believe in REPRESENTATIVE DEMOCRACY, imagine that! Unlike Rudd and Obama, they cannot be bought (or intimidated) by MINORITY interests!]

All it takes is ONE ICBM; that's more than enough to obliterate every capital city in Oz - leaving all those precious resources for the VICTOR!
