

Copenhagen Climate deal predictably Doomed

APEC leaders meeting in Singapore -- the hanging capital of the region -- have clearly indicated that any chance of a realistic climate deal in Copenhagen is doomed, didn't we know it!

The overarching reasons all such planet-saving deals meet with failure are starkly evident; the abysmal failure of the human race to arrest KNOWN WAR CRIMINALS and stop the world's leading civilian killing, terrorist State (America) from further destruction provides a 'hint,' the ingrained resistance to Corporatists attempting to trade - make money - from carbon is the other principal factor; the population has had enough of Capitalists and their CRIMINAL, ruinous methods. We are united in failure, people, YOU/WE HAVE FAILED OURSELVES and our planet, nothing more complicated than that - put it down to human frailty and the fact that ALL species - including arrogant humans -- self-destruct when untenable levels of population are reached.

Our arable lands, forests and oceans are becoming deserts while mass murderers are invited on lecture tours, work that out! And YOU imagined a realistic agreement could be reached in Copenhagen - in your fuckin' dreams!

The New Zealand PM, John Key, summed it up at the APEC summit as follows:

"There's now recognition there will be no legal binding treaty signed at Copenhagen - it's not going to happen. Really what it's going to mean is that over the next year or two leaders are going to have to sit down, countries are going to have to sit down and negotiate a binding set of commitments and that's going to have its own set of challenges."

In other words, we're fucked! 'Good work' you cowardly, useless, suicidal paralysed LEMMINGS! Only a few decades past we marched on Capitals and stopped the Vietnam War, TODAY, however, we are unable to arrest the most brazen mass murderers in recent history, Bush, Blair and Howard! That is the major symptom of the disease/plague infecting the human race at this time.

All is not lost however, when our 'leaders' fail us it is up to us - make your choice, more apathy/slavery and CERTAIN DEATH or DIRECT ACTION, JUSTICE and hopefully a tenable, tolerable LIFE in a much changed world. The decision is OURS not 'theirs!'

[To the few - we know, 'deaf ears,' but as responsible human beings we continue to sound a warning and beat our drums to the bitter end. But not to forget the criminal Corporatists who are responsible for all the planet's and our woes, NEVER FORGET, there's a light pole with YOUR name on it! Crude justice will most assuredly be dispensed by angry hordes.]

Good luck.
