All attempts by puppet governments to implement carbon trading (ETS) are doomed to failure for a very simple reason; *their* 'solution' is the problem! Allow me to clarify - every man and his dog is aware that Criminal Corporatists are responsible for the collapse of the global economy and that laissez-faire Capitalism is the ideological cause of all our current woes. YET the imbeciles and CRIMINALS that perpetrated this global economic horror desire to 'trade' -- MAKE MONEY -- from pollution via Carbon Trading! The solution is the problem, do you get it now?

Criminal elites have terrorised the masses with fear and misinformation until, stunned, paralysed and apathetic, people are unable to act or resist the flagrant criminal injustices perpetrated against them; but they are aware of the nose on their collective face and who/what is RESPONSIBLE for the calamity in which we currently find ourselves!

Had real democratic, REPRESENTATIVE, politicians made radical (necessary) decisions -- rather than surrendering YET AGAIN to incompetent, greedy Corporatists -- and empowered their respective populations with the responsibility to save their own lives and future, some headway would have been made. But faced with yet another Corporatist ruse, designed to rip-off the world while giving hand-outs and concessions to elites, the people respond with inertia; it's not going to cut it! [Interestingly, desperate elites are slowly beginning to understand; but they have no viable alternatives so they persevere with a failed carbon scheme and flagrantly unfair/BIASED ETS 'strategies,' which do not prevent pollution in any event!]

Now comes the outcome of the current bereft approach - IT WILL FAIL as sure as Copenhagen - it already has! The economy/climate will shortly go into a tail-spin and the now hurting masses will rise in ANGER and take it out on the executive criminal class - all of whom are known thanks to publications that list the top 400/100 etc (narcissistic morons!)

There are NUMEROUS underground leaders just biding their time for such a social crisis and as we 'in the know,' KNOW, it ain't gonna be pretty! People would have found 'discovered' their power by eliminating the cause of all their woes, corrupt Corporatists - witless, greedy, PIGS!

It could have been so much easier and cleaner -- CONSTRUCTIVE -- but what do destroyers, mass murderers, thieves and avaricious PIGS know of constructivism? You have taught the people well! Have you ever tried to eat a gold sandwich?

It's all coming down around your ears/snouts and you have NO ANSWER - but we DO; however, first to the spectacle!
