

Censorship and Puppet government in Oz

by Kismo Friday, Jan 1 2010, 8:28pm

international / mass media / news report

'Getting rid of Rudd' -- make it a slogan!

The western world is aware that 'laboratory Australia' will soon trial, for nefarious ruling minorities, UNDEMOCRATIC, MANDATORY, information CENSORSHIP. Malevolent ruling elites around the globe will be watching with great interest the reaction of the overwhelming majority (95%) of Australians that oppose all draconian censorship IMPOSITIONS; it should also be noted that the Rudd government received NO MANDATE from the PEOPLE to impose mandatory anything let alone unwanted information controls; but of course democracy today has degenerated into a charade behind which nefarious elites control governments!

The introduction of totalitarian [censorship](#) is merely another step in the slow but SURE process of eliminating ALL our HARD WON -- over centuries -- democratic rights, liberties and freedoms. I draw attention to the LACK of public protest and organised opposition to the introduction (via legislation) of RETROGRESSIVE laws such as increased public surveillance and bugging, arrest and extended detention without charge on the basis of hearsay, unsubstantiated accusation and/or flimsy 'evidence,' and on it goes! These ONCE ILLEGAL ARRESTS include GAG ORDERS that effectively prevent victims obtaining MUCH NEEDED social support - the reality is these sweeping 'new' laws constitute a dream suite for any [dictator!](#)

This site seems to specialise in pouring scorn on U.S. social paralysis and the lack of organised American opposition to authoritarian rule! Contributing authors would do well to NOTE the 'beam' in their own APATHETIC eye before criticising others!

It is clear from the LACK of opposition to puppet Rudd's censorship laws by the new leader of the opposition Tony Abbott that neither party REPRESENTS the interests of the MAJORITY of Australians - no politician/party would forego the opportunity of gaining huge popular support if indeed they were FREE to determine their own policies!

So we ask the spineless, fowl-mouthed, CONSERVATIVE, Abbott, why he has foregone the opportunity to gain immense public support by opposing Rudd's censorship policies? Socially aware and informed Aussies know the sad answer, orders from 'on high' to puppet politicians pretending to serve the interests of the masses while they instead shamelessly serve the interests of (unrepresentative) minority corporate and mass media elites!

In the face of such appalling COWARDICE from our spineless and servile politicians, we - freedom loving Aussie citizens -- offer the masses a means by which they are easily able to circumvent/bypass CENSORSHIP measures as they are currently proposed! Furthermore, the software package includes the added bonus of removing, via encryption, all identifiers such as IP address etc. - in other words, CONTINUE to surf the net WITHOUT RESTRICTION and maintain anonymity as you do so!

The VPN software package requires only basic knowledge to install (see link). Happy anonymous and censorship-defeating surfing!

A final message to ALL SERVILE, knee-walking Australian politicians: You are fifth rate talents, shameless COWARDS and LACKEYS - go to hell the lot of you!

To the freedom loving people of Oz, we embrace you!

We are ONE
