

WAR is IMMINENT

America now hopelessly tangled in its own web of FRAUD and DECEIT

A lesson taken directly from that superb treatise, The Art of War, states that a weaker opponent defeats the stronger by exploiting (reversing) the enemy's strengths while simultaneously exploiting its weaknesses, a lesson the US clearly failed to learn/heed!

America, armed with toilet paper money, an antiquated (by design) military industrial economy, too many think tanks (cooks in the kitchen) and no unencumbered by vested or political interests, expert specialists that effectively 'do the job,' IS DOOMED TO FAIL! I am openly advertising the fact as the opponent is already defeated - it makes little difference on the final, entirely predictable, outcome.

Admiral Eric Olson, commander of the U.S. Special Operations Command recently stated that "*al Qaeda is now difficult to define*," notwithstanding the FACT it was an American NEO-CON invention in the first instance then utilised as a bogey man to manage the US population and launch illegal wars, while increasing and centralising executive powers, in the second.

For a little while all the machinations and criminal pursuits appeared to work but the old failing of short-term, opportunistic thinking, characteristic of capitalists and conservatives alike, FAILED to see the big picture or medium to long term consequences!

I would clarify in practical terms who and/or what the American invention of al-Qaeda is TODAY - a definition that can't be exploited on Fox news, as it's too REAL! Al-Qaeda today, for all PRACTICAL PURPOSES, is anyone, individual, group or organisation that opposes the criminally led USA! The 'enemy' TODAY is a LEVIATHAN (you are pathetic, Kilcullen!)

According to this new PRACTICAL definition, all opponents of the USA, military, ideological or otherwise combine intentionally or unintentionally to undermine, subvert and destroy the criminal elements that have taken over that country - that simple, doodles!

Therefore, most media sites that do not toe the 'Fox' line are the 'enemy,' as are millions of humanitarians, legal advocates, Mums and Dads and most moral human beings on the planet - quite a force!

Now ask yourself the question, 'Peace Laureate,' Obaa'ma, where does America go from here? WAR is the only 'solution,' given the existing war economy constraints. White House JACKALS concur and approve; Obama clearly does not have the balls to stop them.

That means MILLIONS MORE INNOCENT DEATHS, more mass murdering and child-killing, which makes us proud to be American, don't it, Jethro? Would the above qualify me as 'al-Qaeda?'

Commander Olson seems perplexed or is he just exasperated? I refer to his 'sledgehammer subtle' statement, here quoted from Reuters, "*..al-Qaeda's forces have been regenerated [created] in part by extremists who had been detained, were released and then joined militant groups.officials estimate about one fifth of former detainees are "somehow re-engaging in activity ... against our*

interests." Well, doh! Commander, you sure you're not shitting me?

I have personally been forced to physically restrain and temporarily remove from harms way, until destructive energies were made constructive, people that have been bashed/tortured, for ONE DAY ONLY, by Australian police! What would you imagine the long term CONSEQUENCES to be if INNOCENT people are illegally detained and tortured over a period of YEARS - take a wild guess?

Neo-con, Guantanamo Bay is the greatest asset and breeding ground for future opposition you have, Uncle - you have CREATED hundreds of people now dedicated to the VIOLENT END of the USA - good fuckin' work, MORONS! [Would you like to add something, Dave?]

I have nothing more to say except have a nice exasperated and trembling day, you SCREAMING IDIOTS?

Only ONE non-violent real solution remains but it requires REAL LEADERSHIP, MORAL COURAGE and CHARACTER to implement, which means WAR it will be, ARREST KNOWN WAR CRIMINALS (most neo-cons) AND PLACE THEM ON TRIAL for the WORLD to see! It's the only solution that has a chance of placating a VERY HOSTILE WORLD and RESTORING peaceful and constructive relations. 'Dems da hard FACTS, dummies!'

However, reality dictates WAR as the most likely outcome/scenario; prepare yourselves, doodles, you are going down principally because you are your own worst enemy and secondarily because the opposition is SMARTER than you! It's a hopeless case!

Ned Osama Bin Kelly, (tnx for the tag, I like it!)
