

Oz, PRIMARY nuclear target thanks to America

by teale *Saturday, Mar 6 2010, 6:54pm*

international / peace/war / opinion/analysis

Australia has never seen the likes of such servile, spineless, infantile leaders as the last two Prime Ministers, John 'deputy sheriff' Howard and Kevin 'yes Rupert' Rudd, both of whom are war criminals, traitors, conservative dead-heads and shameless servile COWARDS! The CONSEQUENCES for Oz of allowing these two treasonous lackeys to occupy the highest office in the land are severe indeed!

With the recent 'upgrade' -- no one asked the people -- of A-m-e-r-i-c-a-n surveillance and tracking bases on Oz soil to major OFFENSIVE missile guidance and delivery systems, Australia has become a PRIMARY nuclear target in the event of a major exchange -- which the LUNATIC Americans are pursuing in driven and manic fashion. As I write America continues its brazen aggression by encircling non-aggressive, non-invasive, Russia and China with offensive missile systems! This clearly lunatic action is tantamount to an act of war.

In the circumstances Russia and China have been incredibly patient but as America desperately seeks a FIRST STRIKE ADVANTAGE by decreasing strike distance to strategic targets, the situation has become CRITICAL and the Sino-Russian military alliance has been forced to respond with counter measures and other defensive strategies.

Numerous commentators have stated that the U.S. national debt of over 12 trillion dollars is unlikely to be honoured; America has 'other' financial priorities, namely, pursuing invasive, aggressive, warfare in order to feed its massive military industrial complex, which now holds the nation to ransom, yes it HAS come to that, a nation totally CAPTURED by malevolent Corporate interests!

In other words the U.S. is driven to war regardless of public opinion or any real threats to its security -- recent so-called 'threats' have all PROVEN to be FRAUDULENT or fabricated -- a sore comfort for the millions of INNOCENT civilians killed by the U.S. 'WAR MACHINE' since it embarked on its CRIMINAL course! [A short reference to modern history confirms America as the world's leading civilian killing (therefore terrorist) nation, by a country mile!]

Australia, which has not seen independent leadership for decades, pays a VERY HIGH PRICE for its submissive approach to the world's most dangerous nation. The COST put simply is that new OFFENSIVE, A-m-e-r-i-c-a-n installations at Pine Gap and in the North and North West, leave little choice for targeted nations but to respond in kind.

Oz is rightly perceived by the world to be nothing more than a huge mineral and raw material supplier, thanks to successive incompetent and servile governments that have not pursued the vast innovative skill-base this nation had/has to offer!

In the event of a nuclear exchange, which Americans entertain as a 'solution' to ALL their problems, and in the knowledge that only one (1) ICBM contains approximately fourteen (14) nuclear warheads, all Australia's capital cities would be knocked out together with strategic American targets!

Understand this and understand it well, knocking out all the capitals would not contaminate the nation's vast mineral WEALTH - it matters not who 'wins' the exchange, the victor would claim the resource prize - and FUCK 90% of the dead and dying Australian population! That I'm sorry to say is the long and short of it, morons, Oi, Oi, Oi!

A just reward for servility and cowardice some would say.

The option, of course, is REAL LEADERSHIP and prosecuting Howard, Rudd and others for treason and war crimes. That solution and our robust, independent, legal system is all it would take to restore the nation and re-establish civilised relations with every nation in the world. [America is not a nation, it clearly is a disease!]

The next Federal election would seal Australia's fate one way or the other.

Have a nice day, Oz!

Never forget that we didn't always have gutless, servile leaders; choose your REPRESENTATIVES carefully lest you live and die to regret your decision.
