

Desperation Politics in Oz!

by fray Monday, Mar 8 2010, 6:05am

national / social/political / commentary

I never thought I'd live to see political conservatives propose a scheme that advantages working women with six months (full) paid parental leave, while directly hitting Big Business with the cost! Furthermore, in Alice's inverted 'Ozland', traditional workers' party and incumbent government, Labor, immediately sprang to the defence of Big Business! That's a double-barrel blast from the inverted, bullshit gun.

Abbott and Rudd, lackey wankers!

Of course neither party has the INTEGRITY of a \$1 whore in today's Corporate controlled Australia; no mandate to install hazardous, especially to women in early pregnancy, full-body X-Ray scanners at airports, or lift the ban on 'mad cow' beef imports, or introduce regressive CENSORSHIP (on Murdoch's orders) had been given yet puppet PM, Kevin 'yes Rupert' Rudd, is attempting to hurry these implementations through in order to curry favour with unrepresentative, minority, corporate elites, isn't that right, Mr Murdoch?

Rupert Murdoch has been having breakfast with opposition leader Tony Abbott in order to bring Rudd into line and play one leader off against the other - neither leader realises, or has the guts, to confront Murdoch with interference in the democratic process on penalty of nationalising his media if he persists in meddling; a simple cure for an aging megalomaniac! Nevertheless, Abbott's rating as preferred PM has 'magically' increased by a giant 14 points in a recent (tortured) poll -- the results of which are 'coincidentally' published in the mass media by 'independent' pollsters that are careful to ring the right suburbs for the right results - LOL!

Abbott's radical departure from traditional, conservative, corporate friendly politics, he claims is the result of his daughters' influence, one of whom once 'playfully' accused her father of being 'gay!' It is clear that neither Rudd nor Abbott would be allowed to disadvantage Big Business interests - that is a given in today's Oz, so the latest exercise is merely more hollow spin from Rudd and an attempt by Abbott to play populist politics by appearing to oppose the fat cats!

As a measure of servility both leaders should be tested on the un-mandated CENSORSHIP issue, Murdoch's and Washington's prized policy implementation for Oz - watch BOTH leaders run in horror at the mention of dumping totalitarian information CENSORSHIP and secret government lists

- give the people a break you pathetic, SERVILE, custard-faced cocksuckers, the BOTH of you!
