

Oz visit: A Dose of U.S. Delusion from Rice

Australia experienced a dose of Americana in the form of a visit from (divorced from reality) Condoleezza Rice, who maintains that Iraq is in a better position today than prior to the US invasion! The whole world is aware of the absolute DEBACLE that is Iraq and the ridiculous claims that were made prior to the invasion and now the absurd excuses from Wolfowitz, Rice and others, that everything will turn out fine in the end. Fairytale explanations do not 'cut it' outside the USA, Ms. Rice, what future or 'end' did you have in mind? The whole world is aware that you are 'winging it' or improvising as you go! But it's a damn shame that kids and other innocents are dying while you and your criminally inept government lie and deceive.

Ms. Rice has been called the most powerful woman in the world by some; if her pathetic performance on Oz media is any indication of her acumen, skill and integrity then God help us all. The reality is that Ms. Rice has more blood on her hands than any other woman alive - truly a record of which one could be proud! When the protective maternal instincts of females become perverted the results are the Charles Manson murders and Condoleezza Rice!

It would be too easy to continue exposing this unfortunate excuse for a US Secretary of State, or the rest of her cohorts in crime. However, I would mention that Alexander Downer, Australian Foreign Minister and well-known cream-puff, was imposed upon to attend a luncheon as a guest of Ms. Rice on board a US naval vessel anchored in the harbour. It seems that Ms. Rice was far more comfortable on this floating piece of America than the terra firma of the sunburnt country. The food and surroundings no doubt appalled Downer, he made an awkward and incongruous sight for Oz television viewers. His obvious discomfort in such harsh surroundings was amusing to observe but the 'message' of the warship was not lost on him or the viewing audience, was it Condy?

Be advised Ms. Rice, that murderers of innocent children and civilians are not welcome in Australia under any circumstances. Australians and the free people of the world look forward to placing you in the dock to face the consequences of your crimes against humanity - THAT is the reality of the situation.
