

A Random Juxtaposition

Today, Lewis Carroll's *Alice in Wonderland* has been displaced by the official US government report on 9/11. The report is the most absurd piece of writing in the English language, it defies reason, physics and an army of professionals demanding a forensic investigation!

We are also expected to ignore the fact the CIA commits war crimes daily with its remote controlled (UAV) Drones; or that the Hague Courts are not corrupt or partial – has the entire world gone mad or are flagrant double standards, hypocrisy and open criminality acceptable today? For fuck's sake!

Oz 'news' broadcast that Interpol is seeking an Australian citizen of Serbian background, known as the 'Captain' for a war crimes trial to be held in fascist Croatia – an interesting turn of events in view of the fact that the installed PM of the illegally seceded Kosovo, Hashim Thaci, is on Interpol's files as a wanted murderer, white slaver, arms and heroin dealer -- but we are expected to be selective in our accusations these days! Thaci is Richard Holbrooke's darling and America's puppet, which of course gives him immunity from prosecution – put the gangster in a suit and call him Yushchenko, Karzai, Maliki or Saakashvili, what's the difference as long as they do what they're told! And on it goes ...

Rather than add to the absurd, impotent 'news' and further insult the intelligence of 12 year old children, I thought I'd juxtapose two random media, an image of a woman hand-walking and a Rolling Stones song.

Have a nice tea party!
