

Lynching our Treasonous Leaders

Hanging puppet politicians may not be addressing or curing the root cause of all our social ills but it sure as hell will put the fear of God into the criminal Corporatists that effectively control our democracies.

Let's just call lynching TREASONOUS politicians – after a fair trial, of course -- a very good start!

Consider the Oz situation for a moment; 38% of the world's known uranium supply; currently world's largest gold producer. Prior to China's HUGE consumption, Oz iron ore reserves were estimated to be able to supply the entire world at present consumption, for 400 years – that is a HUGE amount of ore! The resource list goes on with WA's Lithium reserves for electric car batteries, sand mining, coal etc.

Corporate interests fear that a nation that possesses such huge quantities of resources is never in a position to use those resources politically either by selectively trading or price fixing – the solution, ORDER the lackey Oz PM, Kevin 'custard face' Rudd, to spend like a madman ('stimulus') and indebt the nation for generations to come in order to create a trade leverage over the nation's resources.

Notwithstanding Rudd's, clearly TREASONOUS compliance to foreign interests, Wall St Banksters and elite Mining Corporations, in the form of accepting and spending \$1.2 TRILLION of worthless printed paper currency – effectively in exchange for our VALUABLE, REAL resources – the Corporations raping our nation's FINITE wealth are having an open slather, field day! Yes, and all courtesy of THEIR (Murdoch) INSTALLED PUPPET POLITICIANS!

Wake up Oz – there is a passage in the Bible that reads, "there is a time to kill" – I can think of no better time than NOW, can YOU? Surely turning our skills and weapons on the REAL enemies of humanity rather than our fellow citizens in other nations, is the intelligent option/decision.

It is clearly time to view our traitorous lackey politicians as the vile, criminal, treasonous, scum they really are!

Is it obvious this writer is a democrat and patriot? Rudd, Obama, Brown, REPRESENTATIVE -- you must be joking!

We are ONE.
