

Oil Companies: All profit NO disaster Contingencies

by teale *Friday, Apr 30 2010, 9:31pm*

international / environment / commentary

Have we got the picture yet, regarding off-shore oil platforms and their obvious lack of contingency plans in the event of disastrous spills? Oz had a catastrophic explosion and fire on an off-shore rig that spilled thousands of tonnes of oil into pristine seas off Western Australia -- the State that is run by Transnational mining and gas/oil Corporations.

Oil spill, Gulf of Mexico

On every occasion company CEOs or senior corporate directors speak to the media we hear the detestable twang of American accents - for fuck's sake people, THIS IS AUSTRALIA; what does it take for this once proud and independent nation to collectively put a stop to the criminal activity destroying our nation and robbing us of OUR wealth? If you cannot fight for your country then fight for your families and your children's futures, you useless shits -- if not, then suffer like the COWERING SLAVES and shit-eating dogs that you are!

Profit (ONLY) driven, PILLAGE, PLUNDER, polluting, borderless Transnational UNREGULATED companies rape OUR nation under our very noses; furthermore, the COMPLIANT, LACKEY politicians these companies spare no expense to buy and place in power FACILITATE the wholesale RAPE of our nation - TREASON is the accurate term for that behaviour!

Enough is enough, if the Law, 'regulators' (don't make me laugh) and other State institutions have clearly failed in their responsibility to the people and nation then CLEARLY the prerogative returns to the PEOPLE. It is the people that restore REPRESENTATIVE LEADERSHIP and insist on the prosecution of corrupt, thieving Corporations and their lackey, treasonous, political servants - SIMPLE AS THAT! It's done by pulling your thumbs out of your arses and saving your own lives - what else have YOU but your nation and each other? Who or what BEREFT moron would allow their crucial food producing -- ya can't eat oil, dummies -- land and sea environments to be jeopardised and destroyed by fuckin' avaricious, murdering, money grubbing, VILE, AMERICAN SCUM? Give me a friggin' break, Mr Kevin 'pathetic, servile' Rudd.

The recent platform disaster in the Gulf of Mexico clearly indicates that oil companies have learnt nothing from their Australian experience; they ALL clearly require tight regulation, as the cost of their polluting spills far exceeds the filthy profits they generate - it's very bad local

economics, dummies.

Has the penny dropped yet, sheeple? It's Y/OUR nation and OUR coastline these reprehensible bastards are destroying - notwithstanding the millions of innocent human beings they murder in order to obtain more oil fields around the globe.

I have spoken to a number of engineers regarding oil platform safety measures. It may be an added expense at the time of drilling/construction BUT safety measures could easily be included in the overall plan and construction of all off-shore platforms/rigs - only minimal spillage would occur in the worst case scenario. This is not news to greedy oil companies, they have known it for some time but THEY have chosen to minimise, at OUR environment's EXPENSE platform drilling and construction costs! Well, that's why we elect REPRESENTATIVE GOVERNMENTS to ACT IN the nation's and people's BEST interests - you reading this Obama, Rudd, Brown and the rest of the paper mâché, traitorous scum that currently occupy high office in capitals throughout the world?

Really, need I go on?

IT is TIME TO ACT and RESTORE our respective NATIONS to society. Hang and incarcerate the criminals responsible for the massive and horrendous frauds, mass murders, needless wars and eliminate the destructive cancerous rot that is taking hold of all our political capitals -- allow good, healthy 'tissue' to flourish instead.

Have a nice, unpolluted, equitable day, sheeple ;o)

[Form COMMUNITIES on whatever basis you choose; only communities are able to act effectively. Have you ever wondered why the Industrial Revolution favoured the destruction of clans and communities replacing those effective social organisations with the ineffective, ALIENATED nuclear family?]

Peace.
