

LAUNCH!

by lynx *Monday, Aug 9 2010, 7:14pm*

international / peace/war / commentary

No need for explanatory notes; the movement of US/Israeli war machines on land, sea and air tell the clearest story.

There is absolutely no need to tolerate this disease; it only worsens the longer we allow it to spread. If Iran is attacked simply launch on Continental USA, OBLITERATE it, Western Europe, Israel and Japan.

By sheer force of numbers and population distribution victory is certainly ours and the disease is purged - the cost only increases the longer we delay.
