international / prose/poetry / literature

there is a recurring theme/phenomenon
that defies the boundaries of culture, time
and place;
it is traced/located by its common denominator,
human Beings!

from the earliest known encoded expressions
(Brihadâraryaka-Upanishad)
to today's mind warriors;
it refers simply and powerfully to the
universal principle that all things
are essentially ONE

and that that ONE has qualities
which can be EXPERIENCED by all;
indeed, those (through the ages)
that have tasted
the 'ambrosia'
exclaim, "Knowledge, Being, Bliss!"

it is TRUE.

the mystics (poets)
rhapsodise it endlessly;
Lovers swim
in its seas;
the Cosmos
pulses and weeps Bliss as it
implodes/explodes Existence.

we are ALL connected
and nothing is able to permanently
sever that link to our
COMMON HERITAGE

We Are ONE.

The simplest and most agreeable road home
is unconditional LOVE.

Love your way home - your Love will never fail you,
do not fail it!

Beware, or rather 'be aware' of the forces that DIVIDE,
MANIPULATE and separate us from ourselves/existence –
in Unity all things are perfected!

'We Are ONE,' is the salutation of the new age,

nothing can prevent it.

Peace.
