People often ask what they can do to stop the current social malaise being spread by the likes of scoundrels like Aussie Rupert Murdoch and his ilk in the Council for Foreign Relations. Murdoch's Fox 'news' has become the most extreme example of a hate medium that exists today. It flagrantly promotes violence, social division and by implication, mass murder and homicide - we easily recall its primary role in promoting the illegal invasions of Iraq and Afghanistan -- and the civilian holocaust that followed. Put simply, Rupert Murdoch is a war criminal on par if not worse than the infamous Nazi propaganda minister, Joseph Goebbels!

Currently Murdoch is protected by a thoroughly corrupt and criminal U.S. regime and the people that control it, so his arrest in the near future is unlikely; however, all is not lost, what really hurts scum like Murdoch is loss of income and recognition and what better way of achieving that end than by Boycotting his media. Simply cease purchasing, subscribing or viewing any of his media products/outlets, simple! It is something everyone is able to achieve; also, encouraging others to boycott Murdoch would soon see his media empire in ruins - fact!

Boycotts are a simple, historically proven and highly effective means of ridding society of filth like Murdoch - if we maintain our determination, watching his empire crumble may inspire people to aim for greater achievements like restoring our hijacked representative democracies.

Peace.
