There are no 'terrorists,' only criminals!

Sustaining and promulgating LIES is a very tiresome, expensive, involved and cumbersome business for the Corporate media; but exposing mindless spin, obfuscations and subterfuges is as simple as asking the OBVIOUS question: what would YOU do if a foreign power invaded your homeland killed family members (innocent civilians) and attempted to appropriate your nation's resource wealth? Two answers immediately present themselves, FIGHT to restore your nation's sovereignty or COWER and accept slavery under foreign rule - what is YOUR answer?

Think about that on every occasion the media engages in its TRANSPARENT propaganda exercises in support of the criminal Corporate wars of acquisition waged in foreign lands. And when the terror bogeyman is invoked by your favourite puppet politician simply ask yourself why would anyone go to the extreme risk of launching attacks if they haven't been attacked, invaded and occupied themselves?

If YOUR nation is engaged in American led criminal Corporate wars then perhaps it is time to wake up to the SIMPLE TRUTH.

Note the tiresome, empty, meaningless clichés warmongers and puppet politicians constantly employ, "stay the course," "get the job done" etc, and my favourite from the Vietnam era - this one cost 50,000 American lives -- "light at the end of the tunnel!" Unqualified, meaningless slogans/clichés to promote, sustain and promulgate Corporate criminal activity.

[WikiLeaks](#) has recently exposed countless, irrefutable instances of US/NATO WAR CRIMES, the APPROPRIATE ACTION in the circumstances is to hold the culpable, KNOWN war criminals, to account, not succumb to feeble fear campaigns and the mindless, moronic mantras of the mass media.

The credibility rating of mainstream journos and the corporate mass media is ZERO and rapidly declining!
