A reality now impossible to avoid

The latest revelations from [WikiLeaks](#) are an anti-climax of sorts as all the crimes, now minutely detailed, have been known for decades. It was all in the public domain prior to Mr Assange *spotlighting* what the U.S. has been at pains to keep in the shadows since it embarked on its criminal mission broadly outlined in the [PNAC](#) document.

First the Balkans then Iraq, Afghanistan and on to Iran; the model, and now failed strategies, haven't changed: corporate media dis/misinformation, demonization of the target 'enemy' and the destruction of the target State's viability in order to prevent any unified resistance to US-led forces of occupation and Corporate exploitation.

It seemed to work for a while but like all evil plans, they always end in ruin - history brims with accounts of militaristic empires over-extending themselves and imploding in their own corruption, incompetence, greed and brutality. The USA is following a well trodden path to social and economic destruction and any nation foolish enough to tag along will suffer the same fate as the USA.

The die is cast, consequences are inevitable, JUSTICE will be served sooner than ruling criminal cabals and corporatist CEOs imagined - current political leaders that fail to act risk joining the culpable in the dock.

The odorous contempt criminal cabals display for the masses, the insulting level of intelligence they attribute to the people could only end in retaliation, exposure and full ACCOUNTBILITY! Every heinous act and dirty little secret treachery soon to be on permanent public display - a nation's criminal actions are impossible to hide and the consequences are impossible to avoid.

The world now faces a very confronting situation, one that cannot be dismissed - what REAL actions are required to rein in the United States and its criminal allies/partners? Perhaps we should leave the answer to legal specialists and those honourable individuals waiting for the opportunity to haul the guilty into the Courts and set things right.

As for the rest of us we need only maintain and express our natural inclinations for justice, peace and stability.

The imminent demise of the USA can be attributed to the almost universal REJECTION of the pathologically ***perverse ideology of permanent war***, murder, destruction and mayhem, designed to serve the avaricious and destructive interests of Corporatists.

Justice will be served and the people will have their day. See you in Court!
