

## Summer Eyes

a warm summer breeze  
bathes my skin in delight  
banishing the winter chill  
for another season  
or longer --  
who knows the future?

the valley begins  
to stir with life  
ready to don its  
summer garment  
and play host  
to all manner of life.

a visual symphony unfolds  
-- a poet's delight --

sensual eyes absorb  
every part of you;  
hands accustomed to weaving  
lyric verse  
gently trace the contours of  
ur body/mind --  
ur entire being

we move together  
in perfect harmony,  
the warm breeze  
insulating us from  
the memory of harsh  
winter chills

birds throat their love calls  
reminding us  
that only the future  
holds promise,  
Life

the past,  
whether dressed  
in splendour,  
rags or both

is unable to produce,  
we resurrect it  
with memories at times  
but it is gone forever

today is lush  
warm,  
its fullness  
overwhelms and  
soothes the soul  
and senses,  
its abundance  
requires no  
assistance  
only appreciation,  
participation

today is shaping into  
something special,  
perhaps  
a perfect summer day
