international / peace/war / commentary

Why isn't the entire American population outraged or openly deriding puppet Obama and his generals? Why aren't commentators scoffing at the nation's leaders' departure into extreme fantasy -- what does it take for the American people to see reality/reason?

An Alice in Wonderland "*combat over*" declaration in Iraq while maintaining 50,000 troops and almost double that number in lawless 'private security' personnel is no indication of a cessation of conflict/war -- who is running Washington's press/media corps, the Red Queen?

I mean give us all a break, the rest of the world is NOT drinking US water, we KNOW when a war ceases - the continuing presence of hundreds of thousands of armed, amphetamine-soaked, dangerous foreign forces of occupation is certainly no indication that the WAR has ended!

Obama promised, among a raft of other BROKEN promises, to 'bring the troops home,' so why aren't we displaying our utter contempt for the heinous LIARS in Washington? They are not even good liars; in fact they are the most inept in the world!

But surely the icing on America's sociopathic cake is the irrefutable - **the Pentagon's own records** -- EVIDENCE of horrific torture, civilian murders, rape, corruption/bribes and a host of other criminal activities the US military and allied forces condoned, ignored or were party to. The latest revelations from WikiLeaks are piled on top of the WMD, uranium from Niger and the outrageous 45 minute attack capability of Saddam LIES that initially launched the world into Chaos - why aren't those responsible for the millions of innocent deaths and the unimaginable destruction and destabilisation that ensued, in jail? How many more INNOCENT civilians must die before the lunatic nightmare is over?

But the best is yet to come it seems; Obama and his lunatic American PR machine is attempting to sell us Dick Cheney's al-Qaeda 'world terrorist,' permanent war, (Yemen) bogeyman threat again - interesting timing just before the mid-terms don't YOU think -- but what is even MORE remarkable is that anyone in possession of half a brain would believe the same old lies and fall for the same old, now fully exposed tactics, AGAIN!

Next they'll be telling us Iran has WMDs and a 15 minute attack capability! However, the real tragedy of America is that the population is either gonna believe it, ignore it and/or take it where they've been taking it all this time, right up the 'Khyber P-ass!'

Good luck dreamboats cos the rest of the world ain't buying - we SEE the REALITY behind the pathetic, tissue-thin lies, machinations and house-of-card, fabrications.

Well might we say God Save the Queen or Allahu Akbar, because nothing will save the USA.
