

Screaming Hypocrisy! What's new, America?

Murdoch's Wall Street Journal recently reported that CORPORATE PUPPET, Barack Obama, is "considering" using CIA assassination squads to track down and summarily execute/MURDER **suspected** enemies in Yemen, which US (propaganda) media has labelled as 'terrorists' - a term the USA refuses to define or ratify under a universal UN auspice. The reason for this refusal is OBVIOUS, regardless of any sane definition the USA would then clearly be identifiable as the world's leading terrorist State! This latest report furnishes further evidence of that FACT!

Obama, Corporate Lackey

The screaming hypocrisy and double standard the USA hopes would allow it to continue on its criminal course juts like a glass shard on a smooth surface.

Summary executions without recourse to the LAW, due process or even proper identification of the target, is MURDER, pure and simple -- notwithstanding, America's long history of FAILED assassination programs ('Phoenix' in Vietnam). Today's CIA controlled criminal assassination squads operate in Latin America, Iraq and Afghanistan and we all know how much political 'stability' those programs engender! These actions are not condoned under the GENEVA or any other war CONVENTION for the simple reason they are crimes, MAFIA tactics, I reiterate, assassinations/summary executions are CRIMES not warfare!

Now for some home truths you can choke on. Do you NOW know why the entire world loathes and reviles everything American? The world community hates you because of your violent, indiscriminate, criminal ACTIONS, principally, mass murder, military expansionism, theft and plunder.

The tactics utilised by the USA to label anyone THEY do not like or who opposes US criminal policy as terrorists, no longer 'cuts it' with the global majority. Individuals or groups that oppose American imperialism become targets for assassination or at the very least, candidates for illegal rendition, incarceration and TORTURE!

Well, do your best, you yankee doodle dreamboats. You are creating more enemies than you're eliminating, MORONS! (That's another reason you dumbfucks are hated).

We recommend assessing the degree of opposition/consequences prior to embarking on your moronic murdering and thieving sprees.

Today, it really comes down to this, every time 'I' hear an American accent 'I reach for my pistol' - and I'm a fuckin' Aussie, you reprehensible, vile, scum. How many people on this small planet do you think, given the opportunity, would press the button on the entire American continent without a second thought?

An American psychic/prophet by the name of Cayce once predicted that the much reviled nation of America would be razed to the ground if it pursued its present course! Well, you don't have to be psychic to predict an obvious outcome - obvious to everyone except the ruling criminal cabals of the USA, it seems. The only people you are kidding are yourselves, MORONS!
