the American turkey, gobble gobble!

Throughout history many nations have risen and fallen from sublime cultural heights to impoverishment. The Chinese were writing poetry when Europeans were scratching a living from the dirt and fucking their mothers and sisters in caves.

China and India were once great empires, nations of high culture and learning as their ancient texts clearly exemplify; then decline and ruin until thousands of years later their cycle is on the ascendant once again – it is the inevitable movement of cycles, the peaks and troughs that affect everything in our world.

Today, before our very eyes, we witness the rapid decline of America, clearly indicated by the behaviour of the Government Transport Security Administration (TSA).

The outrageous invasion of personal privacy to which air travellers are forced to submit is unparalleled anywhere in the world or in the historical record. Without the slightest exaggeration these intrusions include pornographic imaging and crotch touching/molestation of citizens that travel by air! In any civilised social context these deplorable, disgusting, and psychologically traumatic invasions not only would be regarded as the last straw that broke Liberty's back but are also ILLEGAL and clear evidence of a society contracting into total submission and fear. For pity's sake, who in their right mind or with a shred of remaining moral decency would conduct or submit to these appalling behaviours, I ask YOU?

The answer screams at us via the world's mass AND alternative media. The majority of American citizens submit to what would have been almost impossible to conceive only a few decades past and therein lies the measure of the rapid social decline of a once proud and brave people.

Today's 'brave' Americans submit to the most degrading assaults on their PSYCHOLOGICAL and PHYSICAL wellbeing imaginable. The situation is exacerbated by the 'types' -- low paid, undereducated maladjusts posing as security staff -- committing the criminal abuse!

The ENTIRE WORLD is witness to Americans cowering and cringing like WHIPPED DOGS before the highly offensive, UNREASONABLE and unnecessary authority of an UNREPRESENTATIVE MINORITY that oppresses and EXPLOITS its citizens and would, IF ALLOWED, export this outrageous totalitarian ideology to the rest of the Western World.

I can only speak for my nation and culture; not in y/our wildest imaginings would we accept degrading attacks on our persons such as we witness today in America – the entire gambit is not about 'terrorism' or 'keeping us safe,' IT'S ABOUT SLAVERY, Corporate Profits, the elimination of dissent and the IMPOSITION of authoritarian rule.

If YOU can't see the obvious then perhaps you deserve to be shit-eating slaves just like the whipped dogs of America.

Have a nice submissive day, doodles. The world is also aware that Americans are INCAPABLE of asserting their rights or saving themselves. America will continue to contract and decline so you might as well learn to enjoy it, you shit eating dogs!

Well may we now confidently say, there is no slave like an American slave!

The TSA clearly victimising a woman asserting her rights (under the guidelines). As can clearly be seen the process this poor woman was subjected to was designed to break her spirit and force her to conform to authority regardless of how ludicrous, irrational and abusive it is. This is just one DOCUMENTED case of many. (*Submit, slave!*)

[The absurdity of X-raying *breast milk* notwithstanding]
