Yessiree Bob, no surprises from good ol' America. The vacuum-headed former governor of Alaska, Sarah 'suck my cock' Palin, has found herself an unlikely supporter in her war against reason, rationality and sanity. Her inane comment that Julian Assange of WikiLeaks should be deemed a terrorist and hunted down has gained support from the Obama (corporate) proxy administration. The latest comment to issue from the continental insane asylum, called America - from the Vice-President no less - is that Julian Assange should be regarded as a "high-tech terrorist" and hunted down for revealing incontestable proof that America is the world's leading civilian killing, THEREFORE OVERTLY TERRORIST nation. The American administration is really beginning to grate on the collective reason, rationality and sanity of the international community.

Vice-President Joe Biden, genius!

How much longer can the clearly lunatic and pathologically stupid American nation persist after unashamedly plunging to such depths of idiocy - unparalleled in world history by any national leader/s, I would add? Or perhaps we should ask how much longer will the WORLD tolerate attacks on its reason, morals, sanity AND SOVEREIGN TERRITORY by a clearly LOST, dysfunctional, homicidal and economically FAILING State?

The other underlying question is how much longer can China and Russia REMAIN SILENT when opportunities go begging to trash everything this HYPOCRITICAL CRIMINAL nation ACTUALLY stands for? The world only knows peace when other powers CONFRONT ROGUE NATIONS.

Unfortunately for world peace, this century is noted by a COWARDLY LACK of opposition from the 'ferocious' Russian bear and 'extinguished' Chinese dragon - you people are even more pathetic and cowardly than the American population and that is the lowest standard/measure of bravery that exists in the world today.

Enough said.

Palin
