

The 'LAW' -- Don't Make Me Laugh!

The World today has been built on the backs (sweat, blood, hardship and tears) of average hard working men and women, the producers of real things in a REAL WORLD; minority elites would ignore this FACT at their own peril!

In contrast to REAL producers we have the 'professional class' of paper shufflers, shysters, bankers and the rest; SOCIAL PARASITES defines them accurately. If you require PROOF of their status take a good hard look at the legal profession and the 'LAW,' the professional class' most sacred cow.

ANYONE with a smattering of experience of this profession is AWARE that LAWYERS are heinous and unscrupulous LIARS, double dealers and distorters; they derive huge incomes from interpretation, rhetoric, and selling fictional 'realities' - their (non) 'product' serves itself not those with the greatest need for JUSTICE, as is demonstrated DAILY by International and Local Courts around the world. The coalition of willing criminals, Bush, Blair and Howard, responsible for the first civilian holocaust of the new century, remain at large today, to cite just one example of CORRUPTION, dysfunction and brazen BIAS.

Jailing one Wall St. financial fraudster among hundreds of others responsible for the global economic collapse is a tragic JOKE; and even that case borders on 'Wonderland' logic. How is it possible for one man to steal over \$50 billion over decades, the paperwork alone requires scores of complicit support? However, the people are offered the insult of jailing a single individual for the huge losses they suffered; common sense, reason and basic logic DICTATE that a ruse and corruption of the highest order was undertaken by numerous offenders but this case like so many others was never adequately investigated -- I wonder why!

Would you care to assess the INTEGRITY of the 'one-eyed' International Criminal Court of 'Justice,' which is legally obliged not to pursue Americans, Israelis and NATO allies - the people should be aware that only enemies of NATO commit war crimes and other crimes against humanity; notwithstanding the world's worst kept 'secret' is the civilian death toll in Iraq! Should we mention the blatantly criminal civilian-killing Drone attacks conducted by the CIA and US military almost daily in various regions throughout the world. Nah! We better not, too much brutal REALITY acts as a soporific these days.

Spare a thought for [Bradley Manning](#) who has been TORTURED for over seven months in solitary confinement while Julian '[martini](#)' Assange performs the function of distracting us from the HUNDREDS of heinous crimes committed daily by those seemingly ABOVE the LAW - the agenda of an UNREPRESENTATIVE elite must be safeguarded at all times, didn't you know?

An apology, I must prematurely end this piece before I puke, but feel free to continue and cite all the injustices of our new, lawless, 'Alice in Wonderland' century for our grandchildren and posterity to marvel at -- they need to know what 'stuff' we were made of and how the legacy we left behind led them directly to fascism and social slavery! God forbid that WE should actually do something constructive to remedy the appalling social injustices of the day.

The Law is not an ass, it is an unfolding tragedy and an indictment of us all!

Have a nice day.
