

War Crimes Incorporated

by gan *Thursday, Jan 13 2011, 8:33pm*

international / imperialism / commentary

Today's unwanted but NECESSARY home Truth is, Drone 'warfare' is a WAR CRIME. It kills far more civilians than combatants. It fuels VEHEMENT opposition to the U.S. and its puppet allies. But worst of all, it clearly indicates the FAILURE of the U.S. military and their best strategists to deal legally with modern warfare.

Faced with certain defeat in the field from a wily, fiercely independent and hardened culture of VICTORIOUS fighters, CORPORATE America resorted to CRIMINAL tactics in the form of remote controlled robotic, UAV, drone warfare to (unsuccessfully) maintain their presence in invaded lands.

So ask yourselves, in whose monetary interest is it to consciously create enemies and permanent conflict/war? Certainly not the nation or its people, yes, you've heard it stated on many occasions by Cheney, [Brzezinski](#) and other warmongers in numerous speeches to the CFR and other think tanks, it is the CORPORATIONS that benefit, especially those involved in weapons development, OIL and energy. To say these Companies hold sway (with financiers that support them) over Washington would be gross understatement, they own our governments!

I urge every thinking person to verify and research for themselves what has just been stated, as there are no doubts whatsoever to the claims. The next time some Washington corporate puppet engages in 'making us safe' rhetoric you will KNOW what he is really talking about is making profits for the few and making the nation and WORLD very unsafe indeed.

It is no longer possible to hide the crimes that America and her allies commit daily in the name of PROFITS and Corporate expansionism. Pre-emptive, invasive, occupying, mass murdering, warfare can only be tolerated by the complicit, as NO decent, moral human being could remain silent in the face of such horrendous CRIMES and other criminal activity committed, in full media view, for over a decade.

Those unfortunate people unjustly attacked, murdered and occupied are completely in their LEGAL RIGHTS to RETALIATE to the fullest extent of their capability against the criminal forces that continue to wreak havoc on their traditional lands, culture and families. Are we beginning to get the picture?

The next time some rabid media commentator or Corporate puppet in government mentions the word 'terrorist,' we will all know exactly to whom he refers and it is not the invaded and murdered peoples of Africa, the Far East, Central Asia, Latin America and numerous other regions around the globe - it is YOU!

This story is far from over; not only are the American people oppressed and attacked by their own State, a new breed of combatant has emerged from the war torn regions of the world; one that does not go on indiscriminate killing sprees, like demented American shootists and CIA Drone operators, but chooses their targets carefully to instill the most dread and derive the greatest possible advantage from the least effort.

Corporations flout Law and Order in order to realise their criminal ambitions and so it is with the new breed of unrestrained fighter fighting fire with fire. This new invisible breed is unstoppable their skills only become apparent after the fact.

No one is innocent -- tolerating OVERT war crimes and ignoring continuing criminal activity from OUR ELECTED governments (for over a decade) indicts the entire population.

The next time you hear the bleating of slaughtered sheep, look to yourself and wonder why on earth YOU continue to allow commercial interests to UNNECESSARILY place you in such an untenable and precarious position.
