

America Unintentionally Unites Arab World

by nano *Wednesday, Feb 2 2011, 7:33pm*

international / social/political / opinion/analysis

Political events do not occur in a vacuum, numerous factors converge to trigger what appear, to the uninformed, ill-educated and linear mentalities as 'spontaneous' revolutionary events; however, nothing could be further from the truth.

The blind fanaticism with which America pursued its militaristic, Imperialist agenda (PNAC) over the past decade has created what tribal Arabs and Islamists could never have achieved alone - UNIFICATION across traditional divides!

Unprecedented external pressure from the West has forced the Arab/Islamic masses to react in an entirely predictable manner, though U.S. strategists were BLIND to the fact.

It did not occur to the BRAZEN Imperialists, Perle, Wolfowitz, Brzezinski and the rest at the time that 'enemy creation,' in order to obtain extended executive powers for the purposes of facilitating a Corporate theft agenda, HAS unforeseen but entirely predictable CONSEQUENCES!

American planners foolishly demonised ISLAM in order to pursue their agenda for world domination - Islam is only one of the world's major religions with over a billion adherents; notwithstanding that group populates the world's most strategic regions! Softly, softly should have been the approach, but we should never forget we are dealing with rustic, American brutes that traditionally shoot first and think last.

American planners/'strategists' are presently divided into two camps over the Arab issue, those that smugly assume the Middle East will remain in America's 'pocket' due to the extensive dependencies in the form of finance, infrastructure planning, weapons/high tech sales and the associated necessary training, etc., and those that believe the situation is likely to end very badly for US Imperial (Corporate) interests - the latter group have clearly assessed the situation more accurately.

America, by attempting a visionless, antiquated, method of world domination, has in fact created the circumstances for its own demise. The social revolutions and resistance that Imperialism has engendered throughout HISTORY has seen the end of many an empire in the past, notwithstanding that Imperialism as a practical model for today's instant communications world, is nothing short of an old man's lunatic delusion.

It is a simple matter to negate any 'dependency' America IMAGINES it has over ANY NATION by simply referring to the wily political strategies of Marshall Tito, leader of a tiny, powerless Balkan State after WWII. Tito maintained sovereignty in a world harshly divided by East and West by remaining non-aligned and inviting the world's superpowers to his table. He would regularly run to 'Washington' or 'Moscow' whenever the situation warranted. All so-called dependencies are easily broken and no one is indispensable, facts known by everyone except Washington and Pentagon advisers, it would seem.

America today seems blind to HISTORY, a fatal failing, as will soon become evident to everyone.

America was advised of the dangers prior to embarking on its insane PNAC course but characteristic U.S. arrogance prevailed and no policy changes were implemented; American strategists and 'think' tanks are comprised of like-minded morons engaged in mutual suggestion and hypnotic reinforcement. It could confidently be stated today that America's destiny is written in stone. And it makes for very unpleasant reading!

As for the rest of the world, we will enjoy the spectacle and accelerate wherever and whenever possible the inevitable IMPLOSION and demise of a UNIVERSALLY REVILED, criminal nation.

We are ONE.

Peace.

Endnote:

Of course there is much we could add, however, it is clear that America is devoid of high level expertise, vision and vigour. We would therefore refrain from assisting in any way a rogue State and enemy to all peaceful and freedom loving people everywhere. We continue to work tirelessly against all criminal, mass murdering regimes and continue to DOMINATE in areas of critical importance while America foolishly continues on its ill-planned, destructive, militaristic, murdering, Imperialist course to OBLIVION.

The Problem is Obvious but Solutions Escape Civilian Killing America
