

## The Kosovo Solution for Libya

Criminal western forces led by global bully America -- with double standards and searing hypocrisies blazing -- are moving militarily on the OIL RESERVES of Libya. The only ruffle in their plans is Gaddafi's declaration of a ceasefire, which delays but will not thwart western plans to appropriate North Africa's wealth. The EXCUSE for military intervention is the West's 'concern' for the safety of civilians. Obama, from Washington, 'demanded an end to civilian killing(!)' -- while making this statement Obama and other clowns in Washington expect the entire WORLD to IGNORE American Drones killing civilians almost daily and that notwithstanding the historical FACT that not one American or NATO member has ever been held accountable for the first civilian HOLOCAUST of the 21st Century in Iraq - which would NOT have occurred but for the US/NATO invasion!

Now is probably a good time to ask RUSSIA and CHINA if they are indeed world powers or paper nothings? This scenario is a global gambit and must be viewed as such.

We note the only period in modern history that experienced relative peace was during the 'cold war' when the superpowers were in standoff - well, 'comrades,' where are your balls today? Stand them down in no uncertain terms or forever wear the label COWARD. You FAILED miserably in the Balkans, are we witnessing a REPEAT performance in North Africa? That is the question most independent analysts are asking.

It is clear that the west seeks to either dominate the entire Libyan nation (plan A) or failing that, partition the Eastern region where the oil reserves are located (plan B) -- another illegal 'Kosovo solution' for the Eastern superpowers to choke on.

There is no substitute for action, 'comrades,' you pathetic laughing stocks!

**"That means that all U.S. 'DRONE attacks' against civilians must stop"**

*'The CESSATION of ALL civilian killing in Pakistan and Afghanistan by US/NATO forces is NOT NEGOTIABLE ...' you got that you screaming HYPOCRITE, Obama?*
