Australia has never seen anything quite like Julia 'gargle' Gillard; we have seen Howard suck Bush, Rudd attempt to create an absurd 'NATO of the South Pacific' for Murdoch, Keating surrender our currency/sovereignty to Wall St, Whitlam condemn the Balibo 5 to their deaths and Hawke slobber over Israeli Zionism but Gillard takes the cake for complete, unquestionable, unflinching, OBEDIENCE and servitude to international Corporatists and Bankers.

Gillard represents Corporate Interests

'Her' forthcoming Budget promises to attack the MOST VULNERABLE in society by reducing social services and welfare, gutting vital medical research and scientific development and diminishing a host of government run infrastructure enterprises in order to clear the way for Corporate takeovers. Gillard is squealing like a pig while running errands for Washington, Goldman 'Carbon Tax' Sachs AND mining Companies that plunder and rape our nation for TRILLIONS of dollars in profits while refusing to shoulder a fair tax burden.

If Gillard needs money then she should take it from those who have the lion's share, the TRANSNATIONAL CORPORATIONS pilfering the nation's FINITE resource wealth! But that's not how it works when you sell your soul and the Australian people to the Corporations for a cushy placement after being booted out of office; an outcome she is fully expecting, hence pulling all stops on the Corporate/Washington agenda!

So now WE ALL know how it works, put simply it's called TREASON -- selling out the people and the country to borderless Transnationals and foreign powers in order to secure a nice job after getting trashed at the polls -- let the 'other puppet' have a go!

Here it is out of her own mouth in an address she delivered last night at the Sydney Institute:

*Government must retreat in order to facilitate greater Corporate expansion; "The **time for government to step back** is in this budget," she said echoing the infamous Reagan doctrine;*

'government is not the solution but the problem!'

The most absurd political ploy to date is her pledge to return at least 50% of her carbon tax to households, "that means everyone would be better off with the new GOLDMAN SACHS Carbon Tax," Gillard declares. Give Oz a break with this imbecilic mathematical computation; she takes 100 and gives back 50, so you're 'better off' with the Carbon Tax, ay! (If you're retarded.)

Leave vital research funding and social security/welfare alone, Gillard, at 4.9%, Oz has one of the lowest unemployment rates in the Western World.

If you require funds to fill government coffers then TAX those that have it -- the TRANSNATIONAL CORPORATIONS plundering our nation.
