

The Federal Reserve Banking System's War on Gaddafi

by quill *Thursday, Apr 14 2011, 8:59am*

international / imperialism / commentary

CIA backed 'rebels' in Benghazi have established a Reserve Bank -- complete with governor -- modelled after the infamous, PRIVATELY OWNED, 'Federal' Reserve Bank in New York City. It seems that certain Banking interests, JP Morgan and Goldman 'carbon tax' Sachs among them, cannot tolerate ANY nation that is not connected (enslaved) by its private Reserve Banking system.

Gaddafi's Libya has a Sovereign State-owned Bank and does not strictly trade its large oil exports in greenbacks - two unforgivable sins from the perspective of the robber barons in New York!

Consider the fact that the Benghazi rebels are currently engaged in a civil war of indeterminate outcome yet feel confident enough to establish a Reserve Bank with governor - the word 'unprecedented' has surely earned its meaning today!

In view of these incriminating, extraordinary developments would it seem too farfetched to make the claim that the REAL forces behind the so-called 'rebel' revolt in Libya are NEW YORK Bankers and their Transnational (Oil) Corporations fanatically obsessed with establishing a Global Banking and Corporate monopoly.

The World has seen first-hand how effective a weapon Sovereign Independent Banks can be - the globalist agenda was completely de-railed by China refusing to surrender its currency to Wall St speculators; a simple tactic which foiled a host of plans and effectively spun Wall St Banksters and Robber Barons onto their ears.

Now severely 'scorched' by the Chinese experience, nefarious Financial interests are in dread of any nation that maintains Banking sovereignty and trades in its own value determined currency, such as Libya!

The following article from Bloomberg furnishes enough information in the subtext to alarm anyone that values FREEDOM and SOVEREIGNTY and opposes economic slavery.

It also seems obvious that Independent State Owned banks ensure the Freedom and self-determination of nations. Almost spelled out in recent events and analyses is the alternative option of global economic serfdom or slavery.

Be aware and beware of the nefarious plans and TRUE INTENT of Wall St, PRIVATE Banking and Corporate interests. The UNPRECEDENTED RUSH to establish a Reserve Banking system by 'rag-tag rebels' still fighting a war exposes the REAL interests and objectives behind the motley faces of Libya's rebellion - talk about OBVIOUS!

Rebel Council Forms Oil Company and Reserve Bank in Benghazi

by Bill Varner

The Transitional National Council released a statement announcing the decision made at

a March 19 meeting to establish the "Libyan Oil Company as supervisory authority on oil production and policies in the country, based temporarily in Benghazi, and the appointment of an interim director general" of the company.

The Council also said it "designated the Central Bank of Benghazi as a monetary authority competent in monetary policies in Libya and the appointment of a governor to the Central Bank of Libya, with a temporary headquarters in Benghazi."

The Security Council adopted a resolution on March 17 that froze the foreign assets of the Libyan National Oil Corp. and the Central Bank of Libya, both described in the text as "a potential source of funding" for Qaddafi's regime.

Libya holds Africa's largest oil reserve. Output has fallen to fewer than 400,000 barrels a day, Shokri Ghanem, chairman of the National Oil Corp., said on March 19. The country produced 1.59 million barrels a day in January, according to estimates compiled by Bloomberg. Exports may be halted for "many months" because of sanctions and unrest, the International Energy Agency said.

Libyan Rebels Form Central Bank

Here's one for the Guinness Book of Records. The Libyan rebels in Benghazi said they have formed a Central Reserve Bank and created a new national oil company to replace the State corporation controlled by leader Muammar Gaddafi, whose assets have recently been frozen by the United Nations Security Council -- economic warfare in other words!

The Transitional National Council released a statement announcing the decision made at a March 19 meeting to establish the 'Libyan Oil Company as supervisory authority on oil production and policies in the country, based temporarily in Benghazi, and the appointment of an interim director general" of the company.

The Council also said it "designated the Central Bank of Benghazi as a monetary authority competent in monetary policies in Libya and the appointment of a governor to the Central Bank of Libya, with a temporary headquarters in Benghazi."

This suggests we have a bit more than a rag tag bunch of rebels running around and that there are some pretty sophisticated influences.

I have never before heard of a central bank being created in just a matter of weeks out of a popular uprising.

This buttresses the suspicions in my earlier post where I highlighted an odd U.S. Treasury statement that froze Gaddafi's assets but made clear that if "subsidiaries or facilities come under different ownership and control, Treasury may consider authorizing dealings with such entities."

This continues to look like a major oil and money play, with the true disaffected rebels being used as puppets and cover, as the oil/money transfer takes place...
