international / prose/poetry / literature

watching the far horizon  
sky and sea  
separate  
revealing a vast, gaping chasm  
through which floods  
shimmering white light  
and spinal spurts of delight

light rushes  
overwhelming being (entirely)  
engulfed in this way  
one is able to read  
the leaves of trees  
and decipher the narrative  
of creation  
the continuous dance of existence  
revealed with crystal clarity  
each vein tracing the story  
from source  
to culmination

it is the story of continuous creation  
irresistibly pulsing  
in sheer joy  
wild, untamed (infinite) energy,  
power  
yet soothing to the soul  
and healing of the heart

junctures of the finite and infinite  
reduce mind to nothing  
a meaningless aggregation  
of culture,  
an acquired dis-ease  
a writhing mass of contradictions  
and formalised inanities  
nothing but perverse values  
a prison of identity  
to be jettisoned when the opportunity  
arises

it is good to let it go

and drown in pure light  
completely absorbed  
never to return again  
the same as went before
