

“No Shred of Evidence” - Iraq PROVES that fiction/Fantasy usurps truth/Reality

by stan *Friday, Jun 3 2011, 12:13am*

international / peace/war / commentary

Just as former UN weapons inspectors, notably Hans Blix and Richard Butler, CORRECTLY asserted that Iraq had NO weapons of mass destruction PRIOR to the Bush, Blair and Howard ILLEGAL invasion, former Director General of the International Atomic Energy Agency (IAEA) Mohamed ElBaradei, asserts there is “no shred of evidence” to indicate that Iran is building nuclear weapons! However, now, as before, we certainly cannot permit the TRUTH, much less REALITY, to interfere with America’s LYING mass media propaganda machine and the push for WORLD domination via destabilisation, permanent war and DECEPTION, God forbid!

How could we possibly allow the facts to interfere with FICTION? We have a track record to maintain, we have proof of the mindless gullibility of the American and allied masses; how thoroughly gullible and stupid the western world’s masses really are! NO western leader or high official, serving or retired, has YET been hauled before a war crimes commission or court for their KNOWN war crimes and other heinous civilian killing crimes against HUMANITY. You want proof? There you have it!

So the next time someone emphatically and CORRECTLY states that the western world is in the grip of criminal Financial and Corporatist forces, shout them down with ‘Jethro’ in Wonderland logic, Co2 fantasies and other fictions from western media - then give yourself AND THE FREE WORLD A BREAK and blow your fuckin’ moronic head off!
