US career politician, Robert Gates, dutifully lectured NATO defence chiefs recently on the need to maintain occupying forces in invaded territories and NOT to withdraw THEIR troops when the US begins to reduce its forces in Afghanistan. Gates cited the threat of 'instability' (which invasion and foreign occupation creates) and the likely loss of the precarious 'gains' made by occupying forces as causes for concern.

***US Defence Secretary, Robert Gates***

Gates' thinly veiled message, as most analysts are aware, is that occupying forces are there to stay - the strategy is to invade, destabilise and then cite the need to maintain 'stability' as the excuse for permanent occupation with puppet governments. Give the world a break, Gates, you pathetic little errand boy for the globalists!

The US and NATO have committed - and continue to commit -- heinous war crimes (Iraq) and other crimes against humanity (Torture and Drone strikes) for which they have never been held accountable, a situation that CLEARLY INDICATES the organised corrupting influence of certain Banking/Financial elites and Transnational Corporatists.

These criminal forces have proven they are committed and will stop at nothing to realise their nefarious plan of elite rule and mass slavery for everyone else. It should now be extremely clear to all that these minority criminal forces MUST be stopped by the world's overwhelming majority, as every legal and regulatory global institution has been thoroughly corrupted over the past few decades.

US/NATO forces now deliberately AND OPENLY flout UN resolutions, mandates, international law and convention by engaging in OVERT assassination attempts (Gaddafi) and the murder of innocent civilians and children.

It is clear a globalist agenda exists and that more nations will be ILLEGALLY invaded. The sociopaths behind ALL the wars that rage today will stop at nothing to realise their megalomaniacal dreams. Nevertheless, they can be stopped -- an AWARE, UNITED and focused public is the most potent social force that exists and no elite minority has ever historically prevailed against such a force - be heartened by that historical fact!

Elite Banking/Financial/Corporatist forces MUST BE STOPPED if peaceful relations among

SOVEREIGN nations are to be re-established or even have a chance in the future. Nefarious forces that work their evil machinations have already spelt out their future world; destabilisation, war, locked down global societies, mass SLAVERY and an unassailable ruling elite in control.

WE MUST rout these evil, mass murdering, criminal forces while we have the chance, as the longer we leave it the more difficult the task becomes.

If permanent slavery and expendability is what you desire for your children and loved ones then do nothing, turn on your television sets and lap up all the outrageous LIES and propaganda that issues from the CORPORATE mass media.

However, if you wish to restore REAL DEMOCRACY and a civilised social order with LAWS that are applied to ALL, without fear or favour, then you will have to WORK tirelessly to educate yourself and others. Never VOTE for MAJOR (bought) Parties but elect REAL INDEPENDENTS to OFFICE. If fair elections are denied you then resort to any means to remove corrupt criminal officials from power. If it all ends in a global fight against tiny ruling elites then it will be a very short lived war and a welcome outcome!

It is utterly absurd that the masses tolerate their paltry wages and low living conditions while Corporate Executives reap millions for doing nothing more than secret insider deals.

If you have doubts about a secret global push then keep an eye on Syria and Lebanon!
