

USA NOT China is the major threat to resource rich nations

Whether the linked news report is a feeble attempt to sell Gillard's "enthusiastic" subservience to America to the Oz public -- she signed off on FIVE (5) full scale US military bases of OCCUPATION while in Washington -- or whether clearly CRAFTED news reports are designed to take pressure off the most unpopular PM in Oz history is unknown at this stage, but attempting to portray China as an aggressor salivating over our resource rich North, which they would have to mine after invading and conquering the nation, is so absurd and preposterous that it could pass for American mainstream 'news!'

What utter bunk the linked news report, from a paper that should know better, is.

While the US and its subservient NATO allies have been flouting international law and convention in numerous illegal wars of aggression and resource appropriation, China has not made the slightest menacing gesture to any nation on the globe -- to the extent where China has actually abandoned traditional allies that have been attacked by the US and NATO!

CLEARLY the only nation today that has a track record of invading, murdering and appropriating other nations' resources is the USA. Over the past decade America has bombed invaded or otherwise stolen the resources from numerous nations -- historical fact!

The journo who wrote the linked piece is either a novice, ignorant, demented or in the pay of forces that wish to misinform the Australian public. The historical record bears TESTIMONY to the FACT that America and its allies are the only murdering aggressors of the new century. So wherefore the BULLSHIT and dis/misinformation in the Melbourne AGE?

An accurate news report would explain how nations that refused American financial dominance and its rapacious Corporations were promptly invaded on bogus grounds and relieved of their sovereignty! Could it be that treasonous Gillard and her Washington handlers are attempting to disguise the fact that SHE "enthusiastically" handed Australia over to the criminal USA without the least protestation or attempt to preserve Australia's sovereignty?

The historical FACTS regarding America and China clearly speak for themselves while feeble spin and propaganda remain as transparent as ever.

Howard, Rudd and Gillard, the three most treasonous leaders the nation has ever known, have surrendered Oz and its wealth to criminal America and Transnational Corporations that continue to rape, pollute and scar our beautiful land.

Perhaps we should request that the Melbourne AGE write a piece on Gillard's obvious traitorous behaviour in signing off on FIVE full scale bases of occupation and whether or not Oz should reinstate the death penalty for treasonous politicians

The Oz opposition leader, Tony Abbott, is currently demanding a plebiscite over immigration and Carbon Tax issues; in view of the latest OUTRAGEOUS 'NEWS' perhaps the nation should prepare itself for a full scale revolution by trained Aussie specialists. Our puppet leaders too easily forget that they breathe because specialists allow it!

Veterans and active military specialists have sworn and are duty-bound to protect this nation from all enemies. I would urge Canberra politicians to reconsider their treasonous behaviour before it's too late.
