Since the beginning of this UN approved war crime, Libyan citizens fleeing rebel held territory detail the same story of rape, murder, torture and ethnic cleansing. However, these accounts have been constantly ignored by the western mainstream media/propaganda apparatus.

Libya, unlike other invaded and occupied regions threatens to blow the lid off the entire globalist plan to illegally appropriate the territories and resources of weaker nations.

It matters not that western terrorist nations were once liberal law-abiding democracies, the criminal reality today speaks for itself.

NATO is OVERSEEING wholesale rape, torture, ethnic cleansing and other atrocities all in the name of resource theft and regime change. Soon the weight of horrendous crimes against humanity will undermine the foundation upon which today's North Atlantic Terrorist Organisation -- NATO -- has been formed. Few nations outside America have a taste for brutality, injustice and mass murder.

The following video furnishes yet more proof of brutal crimes committed by US/NATO backed rebel forces.
