Economic Imperialism in action

Goldman Sachs, joint planners of the Carbon PENALTY economy with other large Financial institutions and mega energy Corporations, has wilfully facilitated the financial takeover of Greece by large Banking and Financial concerns -- Greece has clearly been sold into economic slavery!

There is no doubt that large Banking institutions including the IMF, working as any CARTEL would, have together subjugated the economy of Greece. Financial CARTELS have developed a plan whereby they bankrupt weaker economies and then take EVERYTHING worth taking from the bankrupt nation.

For those who continue to labour under the delusion/misapprehension that large, privately owned banking and financial concerns are not working in their mutual interest as CARTELS, it is hoped the following videos serve to increase social awareness and understanding of the forces that would enslave ENTIRE populations.

A nefarious criminal agenda exists to exploit, enslave and plunder the wealth of sovereign nations. Goldman Sachs, the IMF, World Bank and various other large Wall St. investment banks are clearly preying on vulnerable nations with faltering or developing economies.
